Course Syllabi in Faculties of Education André Elias Mazawi, Michelle Stack, 2020-06-11 Course Syllabi in Faculties of Education problematizes one of the least researched phenomena in teacher education the design of course syllabi using critical and decolonial approaches This book looks at the struggles that scholars policy makers and educators from a diverse range of countries including Australia Canada India Iran Palestine Qatar Saudi Arabia the USA and Zambia face as they design course syllabi in higher education settings The chapter authors argue that course syllabi are political constructions representing intense sites of struggles over visions of teacher education and visions of society As such they are deeply immersed in what Walter Mignolo calls the geopolitics of knowledge Authors also show how syllabi have become akin to contractual documents that define relations between instructors and students Based on a set of empirically grounded studies that are compared and contrasted the chapters offer a clearer picture of how course syllabi function within distinct socio political economic and historical contexts of practice and teacher education The History of the University of Zambia, 1966-2016 B. J. Phiri, 2016 Olympic Education Roland Naul, Deanna Binder, Antonin Rychtecky, Ian Culpan, 2017-02-17 A fundamental component of the Olympic ideal is the concept of Olympic education This is the notion that sport can help children and young people develop essential life skills Olympic Education An international review is the first book to offer a comprehensive survey of the diffusion and implementation of Olympic education programmes around the world The book includes 28 chapters with 21 national case studies of countries on every major continent including Australia Brasil Canada China France Germany Japan Russia Spain the UK the US and Zambia Each chapter examines the cultural pedagogical political and societal challenges of teaching Olympic education as well as the national individual and institutional programmes that have emerged It explores key practical and conceptual issues such as the incorporation of Olympic values in PE curricula sport coaching and coach education programmes while also taking into account the collaborative efforts of the governmental bodies sport federations and Olympic institutions responsible for policy and implementation This is important reading for all students researchers and professionals with an interest in the Olympics sport education sports coaching sport policy or physical education **Advances and New Perspectives in Higher Education Quality** Maria Esteban, Ana B. Bernardo, Ellian Tuero Herrero, Joana R. Casanova, Antonio Cervero, 2024-04-22 The changes that have occurred in today s society require Higher Education to be highly efficient in the academic and professional preparation of young people who enter university For that reason universities around the globe have been advocating in recent years for an improvement in the quality of teaching learning processes As an example the World University Consortium 2023 currently presents among its most urgent and priority objectives the identification of the best evaluative practices of the educational processes that are carried out at the University as well as the recognition of the actions aimed at improving educational processes based on scientific evidence In this way it seeks to distinguish all those educational actions that are at the

forefront going from actions at the micro level such as individual teaching practices in the classroom such as the application of the flipped classroom or the use of augmented reality up to actions taken at the macro level such as those proposed in the Horizon Europe 2020 strategy
