**Bush Heritage Australia** Sarah Martin, 2016-09-01 With a plan to own or manage one per cent of Australia by 2025 Bush Heritage Australia is an organisation with big ambitions Started by Bob Brown in 1991 Bush Heritage was born from an urgent mission to protect pristine land from logging After buying two blocks of land in Tasmania's Liffey Valley Brown built a philanthropic organisation to help pay for them As donations flowed in and the organisation grew Bush Heritage set its sights on acquiring

tracts of land across the country repairing environmental degradation and bringing native plants and wildlife back to health. Twenty five years later with more than one million hectares in its care Bush Heritage's achievements are celebrated in this book along with its growth from humble beginnings into a large non profit with benefactors all over the world. Central to this story are the ecologists, researchers, land managers, local Indigenous groups, staff, donors and a brigade of volunteers who have helped the organisation to thrive. For the ever growing band of benefactors and the volunteers and staff of Bush Heritage Australia, happiness flows from our combined effort to ensure that Australia's unique landscapes, wildlife and ecosystems prosper into the future. **EU Securities and Financial Markets Regulation** Niamh Moloney, 2023-03-25. Over the decade or so since the global financial crisis rocked EU financial markets and led to wide ranging reforms, EU securities and financial markets regulation has continued to evolve. The legislative framework has been refined and administrative rulemaking has expanded. Alongside the Capital Markets Union agenda, the UK has left the EU and ESMA has emerged as a decisive influence on EU financial markets governance. All these developments as well as the Covid 19 pandemic have shaped the regulatory landscape and how supervision is organized. EU Securities and Financial Markets Regulation provides a comprehensive critical and contextual account of the intricate rulebook that governs EU financial markets and its supporting institutional arrangements. It is framed by an assessment of how the regime has evolved over the decade or so since the global financial crisis and considers among other matters the post crisis reforms, key legislative measures, the massive expansion of administrative rulemaking and of soft law, the Capital Markets Union agenda, the development of supervisory convergence as the means for organizing pan EU supervision and ESMA's role in EU financial markets governance. Its coverage extends from capital raising and the Prospectus Regulation to financial market intermediation and the MiFID II, MiFIR and IFD, IFR regimes to the new regulatory regimes adopted since the global financial crisis including for benchmarks and their administrators to retail market regulation and the PRIIPs Regulation and on to the EU's third country regime and the implications of the UK's departure from the EU. This is the fourth edition of the highly successful and authoritative monograph first published as EC Securities Regulation. Heavily revised from the third edition to reflect developments since the global financial crisis, it adopts the in depth contextual and analytical approach of earlier editions and so considers the market, political, institutional and international context of the regulatory and supervisory regime.
