Brighton, 2009 Between 1845 and 1852 a watershed event in Ireland s history the Great Hunger forced more than one million starved and dispossessed people most of them poor tenant farmers to leave their native country for the shores of the United States Further weakened by the arduous voyage across the Atlantic

Ocean many sought refuge in the harbor cities in which they landed Not surprisingly Irish immigrants counted as one quarter of New York City's population during the 1850s In *Historical Archaeology of the Irish Diaspora* Stephen A Brighton places Irish and Irish American material culture within a broad historical context including the waves of immigration that preceded the Famine and the development of the Irish American communities that followed it He meticulously details the archaeological research connected with excavations at two pre Famine sites in County Roscommon Ireland and with several immigrant tenements located in the Five Points Manhattan and the Dublin section of nearby Paterson New Jersey Using this transnational approach to link artifacts and ceramics found in rural Ireland with those discovered in sites in the urban northeastern United States Brighton also employs contemporary diaspora studies to illustrate how various factions sustained a distinct homeland connection even as the Irish were first alienated from and then gradually incorporated into American society With more than forty million Americans claiming Irish ancestry fully understanding Ireland's traumatic history and its impact on the growth of the United States remains a vital task for researchers on both sides of the Atlantic Brighton's study of lived experience follows a fascinating historical path that will aid scholars in a variety of disciplines **Military Review**

,2016 **American Higher Education Since World War II** Roger L. Geiger,2021-05-25 Geiger provides an in depth history of the remarkable transformation of higher education in the United States in the decades after World War II taking readers from the GI Bill and the postwar expansion of higher education to the social upheaval of the 1960s and 1970s desegregation and coeducation and the challenges confronting American colleges today Shedding light on the tensions and triumphs of an era of rapid change the author shows how American universities emerged after the war as the world's most successful system for the advancement of knowledge how the pioneering of mass higher education led to the goal of higher education for all and how the selectivity sweepstakes for admission to the most elite schools has resulted in increased stratification today Geiger identifies 1980 as a turning point when the link between research and economic development stimulated a revival in academic research and the ascendancy of the modern research university that continues to the present Sweeping in scope this book demonstrates how growth has been the defining feature of modern higher education but how each generation since the war has pursued it for different reasons It provides the context we need to understand the complex issues facing our colleges and universities today from rising inequality and skyrocketing costs to deficiencies in student preparedness and lax educational standards From publisher description
