The Other Side of the Report Card Maurice J. Elias, Joseph J. Ferrito, Dominic C. Moceris, 2015-12-14 To better serve the whole child look at the whole report card Although parents and teachers spend more time in conferences talking about behavior than they do about rubrics and test scores too many teachers are still guessing when it comes to using outdated behavior ratings and comments to describe the whole child With this book you'll take report cards to the next level integrating social emotional learning and character development into any grading system Resources include Guided exercises for analyzing existing report cards Suggested report card designs Tips on improving teacher parent communication Case studies Testimonials from teachers and students

Reclaiming the Teaching Profession J. Amos Hatch, 2015-02-24 Reclaiming the Teaching Profession gives educators especially teachers and future teachers and their allies a clear overview of the massive effort to dismantle public education in the United States which includes a direct attack on teachers The book details and provides a systematic critique of the shaky assumptions at the foundation of the market based reform initiatives that dominate the contemporary education

scene It names and exposes the motives and methods of the powerful philanthropists politicians business moguls and education entrepreneurs who are behind the reform movement It provides counter narratives that public school advocates can use to talk back to those who would destroy the teaching profession and public education It includes examples of successful acts of resistance and identifies resources for challenging reformers taken for granted primacy in the education debate It concludes with strategies educators can use to speak truth to power reclaim their professional status and reshape the education landscape in ways that serve all of America's children and preserve our democracy *Changing the Course of Failure* Sandra Stotsky, 2018-05-18 The basic purpose of this book is to help policy makers at all levels of government understand that 1 widespread adolescent underachievement is not susceptible to solution by educational interventions no matter how much money is allocated to public education and 2 there are unidentified educational and civic costs to focusing on low achievement and to expecting public institutions of education for K 12 and college to solve a growing social problem Many policy makers seem to think that teachers schools are the primary cause of low achievement Educational institutions still cannot solve a non education caused problem and haven't done so for over fifty years despite all the public and private money that has been allocated The book concludes with suggested policies for addressing the damage to public education from gap closing standards and with suggested areas for policy making in order to change the current course of failure for many low achieving students **The Oxford Handbook of the History of Education** John L. Rury, Eileen H.

Tamura, 2019-06-17 This handbook offers a global view of the historical development of educational institutions systems of schooling ideas about education and educational experiences Its 36 chapters consider changing scholarship in the field examine nationally oriented works by comparing themes and approaches lend international perspective on a range of issues in education and provide suggestions for further research and analysis Like many other subfields of historical analysis the history of education has been deeply affected by global processes of social and political change especially since the 1960s The handbook weighs the influence of various interpretive perspectives including revisionist viewpoints taking particular note of changes in the past half century Contributors consider how schooling and other educational experiences have been shaped by the larger social and political context and how these influences have affected the experiences of students their families and the educators who have worked with them The Handbook provides insight and perspective on a wide range of topics including pre modern education colonialism and anti colonial struggles indigenous education minority issues in education comparative international and transnational education childhood education non formal and informal education and a range of other issues Each contribution includes endnotes and a bibliography for readers interested in further study
