Space Fostering African

Societies Annette Froehlich, 2019-12-24 This book provides detailed insights into how space and its applications are and can be used to support the development of the full range and diversity of African societies as encapsulated in the African Union's Agenda 2063. Like previous books in the Southern Space Studies series, it focuses on the role of space in supporting the UN Sustainable Development Goals in Africa, but it covers an even more extensive array of relevant and timely topics addressing all facets of African development. It demonstrates that while great achievements have been made in recent years in terms of economic and social development which has lifted many of Africa's people out of poverty, there is still much that needs to be done to fulfill the basic needs of Africa's citizens and afford them the dignity they deserve. To this end, space is already being employed in diverse fields of human endeavor to serve Africa's goals for its future, but there is much room for further incorporation of space systems and data. Providing a comprehensive overview of the role space is playing in achieving Africa's developmental aspirations, the book is of great interest to both students and professionals in fields such as space studies, international relations, governance, social and rural development, and many others. **The Report: Ghana 2022** Oliver

Cornock, Ghana is the first African country to achieve independence from British colonial rule and is widely known for its natural resources such as cocoa as well as its inland water sources. Several measures have been taken to balance government revenue and spending, and the country remains a safe haven for foreign direct investment which stood at 830m in the first half of 2021. The most recent general elections held in December 2020 were favourably assessed by observers who noted that they represented a continuation of democratic processes. Daily Graphic Ransford Tetteh, 2014-04-28 The Ubiquity of Positive Measures for Addressing Systemic Discrimination and Inequality David Oppenheimer, 2019-08-26 Positive measures to prevent and remedy discrimination have been adopted in many parts of the world.
