University Of Mpumalanga Application Form 2015:

Applied Geochemistry Athanas S. Macheyeke, Dalaly Peter Kafumu, Xiaohui Li, Feng Yuan, 2020-02-07 Applied Geochemistry Advances in Mineral Exploration Techniques is a book targeting all levels of exploration geologists geology students and geoscientists working in the mining industry This reference book covers mineral exploration techniques from multiple dimensions including the application of statistics both principal component analysis and factor analysis to multifractal modeling The book explains these approaches step by step and gives their limitations In addition to techniques and applications in mineral exploration Applied Geochemistry describes mineral deposits and the theories underpinning their formation through worldwide case studies *Global Public Procurement Theories and Practices* Khi V. Thai, 2016-12-27 This book discusses current theories and practices in the field of public procurement Over the past few decades public procurement has had to evolve conceptually and organizationally in the face of unrelenting budget constraints government downsizing public demand for increased transparency in public procurement as well as greater concerns about efficiency fairness and equity Procurement professionals have also had to deal with a changeable climate produced by emerging technology environmental concerns and tension between complex regional trade agreements and national socioeconomic goals This volume presents sixteen case studies focusing on the themes of public procurement as a policy tool and performance based public procurement The first section discusses public procurement as a policy tool and the challenges involved in balancing the competing interests of market forces legal requirements political pressures and environmental concerns The second section discusses performance based public procurement highlighting the frameworks used to assess procurement systems the gaps between policy and practice and strategies for bridging those gaps The final section of the book discusses current issues in procurement such as the Trans Pacific Partnership risk mitigation and procurement as a profession By combining theory and analysis with evidence from the real world this book is of equal use to academics policy makers and procurement professionals **Geohistory, Capitalist Development, and South Africa** Kevin R. Cox, 2025-02-27 In South Africa it is thirty years since apartheid was overthrown The country now teeters on being a failed state But South African history cannot be explained in isolation from developments in the rest of the world Nor can it be understood in terms of change from a regime where race seemed all determining to one where race is supposed to be a matter of indifference Rather this book argues that the key to understanding South Africa lies in the logics of capitalist development These explain why capitalist domination has taken racial forms and why global conditions have been so important **Infrastructures for Peace in Sub-Saharan Africa** Mediel Hove, Geoff Harris, 2019-06-14 Cultures of violence are characteristic of many countries in sub Saharan Africa and attempts to move towards cultures of peace have often proved difficult and ineffectual And yet the wide variations in levels of violence within and between countries show that it is not inevitable rather it is the result of choices made at individual community and societal levels This book examines the

potential of peace infrastructures as vehicles to strengthen and spread progress towards cultures of peace Peace infrastructures vary hugely in sophistication and level The examples examined in this book range from tiny structures which help resolve conflicts between individuals and within community organisations peace committees which serve local communities peace education and peace club programmes in schools mediation mechanisms to prevent election violence and to ministries of peace to coordinate government and non government efforts in peacemaking and peacebuilding The overall finding is that the development of peace infrastructures at all levels has great potential to build cultures of peace 1 It is the only book available which documents the experience and potential of nonviolence in post independence sub Saharan Africa 2 It makes a persuasive case for the development of various peace infrastructures in order to make peace sustainable 3 It explains how strategic planning can be utilised both to bring about change and to institutionalise it

The Work of Repair Thomas Cousins,2023-06-06 In the timber plantations in northeastern South Africa laborers work long hours among tall swaying lines of eucalypts on land once theirs In 2008 at the height of the HIV AIDS crisis timber corporations distributed hot cooked meals as a nutrition intervention to bolster falling productivity and profits But life and sustenance are about much more than calories and machinic bodies What is at stake is the nurturing of capacity across all domains of life physical relational cosmological in the form of amandla An Nguni word meaning power strength or capacity amandla organizes ordinary concerns with one s abilities to earn a wage to strengthen one s body and to take care of others it describes the potency of medicines and sexual vitality and it captures a history of anti colonial and anti apartheid struggle for freedom The ordinary actions coordinated by and directed at amandla do not obscure the wounding effects of plantation labor or the long history of racial oppression but rather form the basis of what the Algerian artist Kader Attia calls repair In this captivating ethnography Cousins examines how amandla as the primary material of the work of repair anchors ordinary scenes of living and working in and around the plantations As a space of exploitation that enables the global paper and packaging industry to extract labor power the plantation depends on the

availability of creative action in ordinary life to capitalize on bodily capacity The Work of Repair is a fine grained exploration of the relationships between laborers in the timber plantations of KwaZulu Natal and the historical decompositions and reinventions of the milieu of those livelihoods and lives Offering a fresh approach to the existential ethical and political stakes of ethnography from and of late liberal South Africa the book attends to urgent questions of postapartheid life the fate of employment the role of the state in providing welfare and access to treatment the regulation of popular curatives the queering of kinship and the future of custom and its territories Through detailed descriptions Cousins explicates the important and fragile techniques that constitute the work of repair the effort to augment one's capacity in a way that draws on acknowledges and reimagines the wounds of history keeping open the possibility of a future through and with others

A Scientific Bibliography of the Far Northern Drakensberg Rodney Moffett, 2023-04-14 This Scientific Bibliography of the Far Northern Drakensberg is a continuation by the Afromontane Research Unit of the University of the Free State ARU to document published and other similar works on the mountains of the summer rainfall area of South Africa It follows A Scientific Bibliography of the Drakensberg Maloti and Adjacent Lowlands which was published in 2020 Moffett 2020 and which covered the area between the North Eastern Cape and the North Eastern Free State The current work extends this northward by including articles and publications dating back to 1875 E Cohen on the Lydenburg goldfields reaching as far as the Wolkberg and Woodbush near Tzaneen in Limpopo Province Figure 1 shows the boundary of the area covered and although referred to as the Far Northern Drakensberg in this work it is identical to that described as the LMEE Limpopo Mpumalanga Eswatini Escarpment by Clarke et al 2022 Although slightly separate from the lower escarpment the mountainous Barberton and adjacent Eswatini area as well as the Leolo Mountains in eastern Sekhukhuneland are also included Details on how the boundary in figure 1 was determined are given in Clark et al 2022 Bibliographies on two further ranges in the summer rainfall area viz the Magaliesberg in Gauteng province and the Soutpansberg in Limpopo province are to be the subject of future compilations

Tracing the Domestic Pig Goran Kušec, Ivona Djurkin Kušec, 2024-07-10 The appearance of the domestic pig today is shaped mainly by the economic expectations of us humans Today's pig has superior reproductive fattening and carcass traits compared to its ancient ancestors This could not be achieved without the highly effective support of scientific research aimed at revealing the genetic basis underlying the important economic traits of pigs and the involvement of novel technologies in phenotyping these animals both in vivo and post mortem Yet the research is spreading beyond the biological issues connected to the production of pigs and their products The latest developments in computer science and informatics technology enable us to collect and store information from all stages in the production of food leading back to its origin Questions about the breed the way the pigs were raised how were they managed and how they were processed into a wide palette of products can be answered by the use of methodologies developed by data scientists and those from the fields of different omics All this information can be passed along the chain to consumers in a repeatable

manner The producers can use these data to manage such complex issues as meat or product quality And this closes the circle Tracing the domestic pig is an attempt to present the current knowledge about this valuable animal its origin composition and the food that it gives us and to predict or foresee what can happen to this species in the time to come
