**The Evolving Role of the Public Prosecutor** Victoria Colvin, Philip Stenning, 2018-09-24 The modern public prosecutor is a figure both powerful and enigmatic Legal scholars and criminologists often identify three essential components of criminal justice systems police courts and corrections Yet increasingly the public prosecutor occupies a distinct role independent from any of these branches Acting outside of the court and therefore largely out of the public eye the prosecutor's control over whether and what charges proceed to court can limit judicial discretion on sentencing open pathways to alternative measures and even deny entry into the criminal justice system entirely In this sense the prosecutor serves as a true gatekeeper to the criminal process This book addresses key aspects of the evolving role of domestic and international prosecutors in common law and civil law systems in the twenty first century and the challenges posed by this evolution This collection of chapters from respected scholars takes an international comparative approach and explores how these different legal systems have borrowed theorisations and articulations of the prosecutorial role from each other in adapting the office to changing conditions and expectations The volume is structured around four main themes relating to the role of the modern prosecutor the nature of the prosecutor's office the role of the prosecutor in investigations prosecutorial discretion and how it is exercised and politicisation and accountability of prosecutors This book is essential for scholars and students in criminal justice pre law legal studies criminology justice studies and political science and is useful as a resource for those interested in legal change around the world

Criminal Justice in International Society Willem de Lint, Marinella Marmo, Nerida Chazal, 2014-01-03 This book adopts a critical criminological approach to analyze the production representation and role of crime in the emerging international order It analyzes the role of power and its influence on the dynamics of criminalization at an international level facilitating an examination of the geopolitics of international criminal justice Such an approach to crime is well developed in domestic criminology however this critical approach is yet to be used to explore the relationship between power crime and justice in an international setting This book brings together contrasting opinions on how courts prosecutors judges NGOs and other bodies act to reflexively produce the social reality of international justice In doing this it bridges the gaps between the fields of sociology criminology international relations political science and international law to explore the problems and prospects of international criminal justice and illustrate the role of crime and criminalization in a complex evolving and contested international society

Prosecution of Politicide in Ethiopia Marshet Tadesse Tessema, 2018-09-26 This book investigates the road map or the transitional justice mechanisms that the Ethiopian government chose to confront the gross human rights violations perpetrated under the 17 years rule of the Derg the dictatorial regime that controlled state power from 1974 to 1991 Furthermore the author extensively examines the prosecution of politicicide or genocide against political groups in Ethiopia Dealing with the violent conflict massacres repressions and other mass atrocities of the past is necessary not for its own sake but to clear the way for a new beginning In

other words ignoring gross human rights violations and attempting to close the chapter on an oppressive dictatorial past by choosing to let bygones be bygones is no longer a viable option when starting on the road to a democratic future. For unaddressed atrocities and a sense of injustice would not only continue to haunt a nation but could also ignite similar conflicts in the future. So the question is what choices are available to the newly installed government when confronting the evils of the past. There are a wide array of transitional mechanisms to choose from but there is no one size fits all mechanism. Of all the transitional justice mechanisms namely truth commissions, lustration, amnesty, prosecution and reparation, the Ethiopian government chose prosecution as the main means for dealing with the horrendous crimes committed by the Derg regime. One of the formidable challenges for transitioning states in dealing with the crimes of former regimes is an inadequate legal framework by which to criminalize and punish egregious human rights violations. With the aim of examining whether or not Ethiopia has confronted this challenge, the book assesses Ethiopia's legal framework regarding both crimes under international law and individual criminal responsibility. This book will be of great relevance to academics and practitioners in the areas of genocide studies, international criminal law and transitional justice. Students in the fields of international criminal law, transitional justice and human rights will also find relevant information on the national prosecution of political violence in particular and the question of confronting the past in general.

Marshall Tadesse Tessema is Assistant Professor of the Law School, College of Law and Governance at Jimma University in Ethiopia and Postdoctoral Fellow of the South African German Centre, University of the Western Cape in South Africa.

**Thematic Prosecution of International Sex Crimes** Morten Bergsmo, 2018-06-01

**Policing for a New South Africa** Mike Brogden, Clifford D. Shearing, 2005-08-04

The state police force of South Africa has acquired massive notoriety since its formation. Its officers have developed a reputation for routinely provoking violence and torturing suspects. As the key bastion of apartheid, it is in urgent need of change. In *Policing for a New South Africa*, Mike Brogden and Clifford Shearing evaluate the options for change. They critically analyse orthodox policing ideas imported from the West and contrast them with the indigenous model of independent policing from the townships of South Africa itself. Together they offer significant possibilities for the future. Importantly, they suggest that rather than South Africans import ideas wholesale from the West, the latter countries in the light of the failures of their own police systems have much to learn from South Africa.
