Healthcare researchers are moving their efforts to the cloud because they need adequate resources to process, store, exchange, and use large quantities of medical data. Cloud Computing in Medical Imaging covers the state-of-the-art techniques for cloud computing in medical imaging healthcare technologies and services. The book focuses on Machine learning algorithms for health data security, Fog computing in IoT-based health care, Medical imaging and healthcare applications using fog IoT networks, Diagnostic imaging and associated services, Image steganography for medical informatics. This book aims to help advance scientific research within the broad field of cloud computing in medical imaging healthcare technologies and services. It focuses on major trends and challenges in this area and presents work aimed to identify new techniques and their use in biomedical analysis.

The Southern African Development Community

Treaty-Nexus Korwa Gombe Adar, Kebapetse Lotshwao, Thekiso Molokwane, Dorothy Mpabanga, Norbert Musekiwa, 2023-03-27. Since its establishment in 1980, the Southern African Development Community (SADC) has largely been a state-driven organization with the people of Southern Africa though enshrined in the treaty, remaining observers in the SADC democratization and integration agenda. The Southern African Development Community Treaty Nexus: National Constitutions, Citizens' Sovereignty, Communication and Awareness, edited by Korwa Gombe Adar, Dorothy Mpabanga, Kebapetse Lotshwao, Thekiso Molokwane, and Norbert Musekiwa, brings in the people of Southern Africa, the key beneficiaries of the integration agenda in the SADC democratization and integration epistemology. Using the new concepts of sadcness and sadcnization, this book operationalizes from legal communication and awareness perspectives the nexus of the people of Southern Africa democratization and integration in the SADC region. From legal and communications lenses, the contributors argue that democratization and integration are about people, citizens, the sovereigns, and not merely the abstract actors called nation states. Using the case studies of Angola, Botswana, Madagascar, Mozambique, South Africa, and Zimbabwe, the contributors engage in this epistemology and assess, among other things, the peoples of Southern Africa, the Southern African Development Community integration nexus.
