University Of Pretoria Fees 2015:

Fees Must Fall Susan Booysen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt. FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa. More broadly it radically questioned the socio-political dispensation resulting from the 1994 social pact between big business, the ruling elite and the liberation movement. The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left. Yet its objectives are more complex than those of earlier struggles. The student movement has challenged the hierarchical top down leadership system of university management and its double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance. University managements while on one level amenable to change have also co-opted students into their ranks to create co-responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution. This book maps the contours of student discontent a year after the start of the FeesMustFall revolt. Student voices dissect colonialism, improper compromises by the founders of democratic South Africa, feminism, worker rights and meaningful education. In depth assessments by prominent scholars reflect on the complexities of student activism, its impact on national and university governance and offer provocative analyses of the power of the revolt. Research and Practice in Chemistry Education

Madeleine Schultz, Siegbert Schmid, Gwendolyn A. Lawrie, 2019-04-06 This book brings together fifteen contributions from presenters at the 25th IUPAC International Conference on Chemistry Education 2018 held in Sydney. Written by a highly diverse group of chemistry educators working within different national and institutional contexts with the common goal of improving student learning, the book presents research in multiple facets of the cutting edge of chemistry education, offering insights into the application of learning theories in chemistry combined with practical experience in implementing teaching strategies. The chapters are arranged according to the themes: novel pedagogies, dynamic teaching environments, new approaches in assessment and professional skills, each of which is of substantial current interest to the science education communities. Providing an overview of contemporary practice, this book helps improve student learning outcomes. Many of the teaching strategies presented are transferable to other disciplines and are of great interest to the global community of tertiary chemistry educators as well as readers in the areas of secondary STEM education and other disciplines. **Power**

Shift? Political Leadership and Social Media David Taras, Richard Davis, 2019-12-09 Power Shift: Political Leadership and Social Media examines how political leaders have adapted to the challenges of social media, including Facebook, Instagram, Twitter and memes among other means of persuasion. Established political leaders now use social media to grab headlines, respond to opponents, fundraise, contact voters directly and organize their election campaigns. Leaders of protest movements have used social media to organize and galvanize grassroots support and to popularize new narratives, narratives that

challenge and sometimes overturn conventional thinking Yet each social media platform provides different affordances and different attributes and each is used differently by political leaders In this book leading international experts provide an unprecedented look at the role of social media in leadership today Through a series of case studies dealing with topics ranging from Emmanuel Macron and Donald Trump s use of Twitter to Justin Trudeau s use of selfies and Instagram to how feminist leaders mobilize against stereotypes and injustices the authors argue that many leaders have found additional avenues to communicate with the public and use power This raises the question of whether this is causing a power shift in the relationship between leaders and followers Together the chapters in this book suggest new rules of engagement that leaders ignore at their peril The lack of systematic theoretically informed and empirically supported analyses makes *Power Shift Political Leadership and Social Media* an indispensable read for students and scholars wishing to gain new understanding on what social media means for leadership

The

Dynamics of Changing Higher Education in the Global South Busani Mpofu, Sabelo Ndlovu-Gatsheni, 2020-06-29 Today there are generally universities in Africa rather than African universities The legitimacy of the university in Africa is under serious questions now because of its complicity in racism patriarchy sexism colonialism capitalism genocide epistemicide linguicide culturecide and alienation In other words the university in Africa as we know it today is elitist and exclusionary Therefore rethinking the idea of the university is fundamental to overcoming its current deficiencies in the Global South This volume bringing together a number of national case studies and macro analyses on the dynamics of changing higher education in the Global South gestures towards the desired imagined decolonial African university which should be a site of multilingualism where African indigenous languages cosmologies and ontologies become a central part of its identity and soul intolerant of epistemicides linguicides and cultural imperialism but a site of cognitive and social justice that fully embraces the idea that all human beings are born into valid useful relevant and legitimate knowledge systems

Cultural

Impact on Conflict Management in Higher Education Nancy T. Watson, Lei Xie, Matthew J. Etchells, 2018-07-01 Cultural Impact on Conflict Management in Higher Education shares information regarding conflict management and resolution in higher education from a global perspective In this book we introduced many conflict resolution methods from different regions in the world You can borrow some successful strategies and examine the differences and similarities between contexts The book shares a conflict resolution model which may direct the reader to start thinking about addressing and managing conflicts from different levels of organizations This book is a collective work of authors coming from all over the world We chose higher education as the context because it is a place where diverse thoughts perspectives and people come together Because of the potential richness of diversity on a college campus the opportunity for conflicts occurs Managing

conflict does not work when there is a one way only approach model for addressing conflict Some conflict resolution encompasses multiple dimensions a one s personal beliefs or beliefs about an issue b an individual s personal history in terms of how the conflict was perceived as something to be discussed or not c work culture of the conflict where if one has a conflict the person or unit is messing up or there is a problem person d the unconscious strategies of face saving trying to maintain one s image present e social hierarchies or relationships and f the diversity dimensions and issues that may be present

Authors offer both personal and professional insights into the ways in which the youth navigate their own pathways to adulthood. These include formal and informal engagements with politics as well as protest and employment, entrepreneurship, education, religion, experiences with sexuality and violence, and a multitude of other life experiences. Contributors paint a picture of the initiative, agency, and resilience of the youth as well as the challenges before them. Authors also identify the state of limbo faced by those unable to make the transition out of youth into full adulthood as a result of their socio-economic circumstances and political context. By engaging these experiences and insights and primarily informed by the inputs of young people, the authors highlight the limitations of existing youth policies and frameworks. The case is made for policy instruments to be informed by the lived experiences of the youth as they navigate a complex macrosocial environment and by the messages the youth communicate about the limitations of current approaches.

DesignBuild in Postcolonial Contexts: A Critical Interrogation Vera Simone Bader, In diesem Buch betrachten neun Autorinnen die Lernmethode DesignBuild im postkolonialen Kontext. Anhand konkreter Beispiele wird die handlungsorientierte Vorgehensweise kritisch hinterfragt und evaluiert. Dabei liegt ein Fokus auf den Auslandseinsätzen europäischer und US-amerikanischer Studierender, die in fremden Kulturen ihr frisch erworbenes Wissen aktiv einsetzen. Es werden aber auch Projekte von Studierenden aus Lateinamerika, Asien und Afrika dokumentiert und analysiert, die diese Methode als Experimentierfeld nutzen, um normative Regeln, die häufig noch heute von der Kolonisierung geprägt sind, in Frage zu stellen.
