### **Work-Life Balance in Architecture**

Igea Troiani, 2024-03-04 This book seeks to improve the work lives of architects of diverse demographics who do not fit or want to replicate the traditional 24/7 white male architect lifestyle Aimed at a workforce whose life and career expectations have changed drastically in recent years it helps readers of different generations to make informed choices about their careers enabling students educators and professionals to prioritise wellbeing and offer their design and practice voice to enhance a built environment for all Work Life Balance in Architecture examines what it means to play the game of architecture to choose to study and pursue a career in architecture rather than another profession The book shows the economic social and professional structures within which architectural education and practice operate and reveals the impact of a corporate neoliberal big business mentality on wellbeing After setting out the context exacerbating work life imbalance the book discusses the paths an architect may take whether this leads to a career in practice or not in architecture at all and how alternative gameplay moves can advantage or disadvantage those of different gender class ethnicity race or age at different career stages It concludes by examining how the places in which an architect works the time available to work and critiques of perpetual neoliberal economic growth can enhance the lives of all architects today

### **Arieh Sharon and Modern**

**Architecture in Israel** Eran Neuman, 2023-11-30 Arieh Sharon and Modern Architecture in Israel Building Social Pragmatism offers the first comprehensive survey of the work of Arieh Sharon and analyzes and discusses his designs and plans in relation to the emergence of the State of Israel A graduate of the Bauhaus Sharon worked for a few years at the office of Hannes Mayer before returning to Mandatory Palestine There he established his office which was occupied in its first years in planning kibbutzim and residential buildings in Tel Aviv After the establishment of the State of Israel in 1948 Arieh Sharon became the director and chief architect of the National Planning Department where he was asked to devise the young country's first national masterplan Known as the Sharon Plan it was instrumental in shaping the development of the new nation During the 1950s and 1960s Sharon designed many of Israel's institutions including hospitals and buildings on university campuses This book presents Sharon's exceptionally wide range of work and examines his perception of architecture in both socialist and pragmatist terms It also explores Sharon's modernist approach to architecture and his

subsequent shift to Brutalist architecture when he partnered with Benjamin Idelson in the 1950s and when his son Eldar Sharon joined the office in 1964 Thus the book contributes a missing chapter in the historiography of Israeli architecture in particular and of modern architecture overall This book will be of interest to researchers in architecture modern architecture Israel studies Middle Eastern studies and migration of knowledge **Designing Emerging Markets** Giaime Botti, 2023-05-22 This book offers a unique glance into the process of globalisation of the architectural practice during the last three decades through the lenses of innovative methodologies in architectural history based on quantitative data Focusing on the golden age of globalisation 1990 2019 it investigates the transnational work of more than one thousand architectural firms of different business models from Europe North America and the Asia Pacific in a broad sample of emerging markets Mainland China South East Asia India the Persian Gulf Sub Saharan Africa Russia and Kazakhstan and Latin America In the book different thematic geographies are presented to explore the global scope of the contemporary profession examine significant projects and the structural conditions behind them and reveal the debates that such works generated Understanding the global agency of design firms in emerging markets also becomes a way to study different market conditions modes of production and architectural trends comparatively and to highlight the shifts that occurred in the profession over the last few decades The use of quantitative methodologies produces a novel and updated narrative on contemporary architecture in emerging markets grounded in quantitative data rather than in preassumptions and purely qualitative interpretations Richly illustrated this book is further enhanced by an ample set of maps graphs and tables to visualise data better **Universities as Drivers of Social Innovation** Davide Fassi, Paolo Landoni, Francesca Piredda, Pierluigi Salvadeo, 2019-11-15 This book reviews the social role of universities in their local urban contexts and describes a number of initiatives of major interest in terms of the impact achieved the range of stakeholders involved and the significance of the university campus and teachers as agents of change It is divided into three parts the first of which draws on the international literature to provide theoretical background regarding the role of universities and university campuses as drivers of and magnets for social innovation The second and third parts each focus on four main themes of interest in the contemporary design setting urban community gardens social TV stations mobile pavilions and economic sustainability models After a theoretical overview that also illustrates international best practices it then focuses on the specific context of Milan based on the pilot project recently conducted by the Politecnico di Milano CampUS incubation and implementation of social practices which won the 25th ADI Compasso d Oro Award 2018 in the social design category The book is of interest to academics students those working at public institutions and city policymakers **Spaces of Teaching and Learning** Robert A. Ellis, Peter Goodyear, 2018-02-19 This integrated collection of perspectives on the spaces of teaching and learning uses learning space to place educational practice in context It considers the complex relationships involved in the design management and use of contemporary learning spaces It sheds light on some of the problems of connecting the characteristics of spaces to the practices and

outcomes of teaching and learning The contributions show how research into learning spaces can inform broader educational practices and how the practices of teaching learning and design can inform research The selection of chapters demonstrates the value of gathering together multiple sources of evidence viewed through different epistemological lenses in order to push the field forward in a timely fashion The book provides both a broad review of current practices as well as a deep dive into particular educational and epistemological challenges that the various approaches adopted entail Contrasts and commonalities between the different approaches emphasise the importance of developing a broad robust evidence base for practice in context This is the inaugural book in the series Understanding Teaching Learning Practice Universities and Colleges David Palfreyman,Paul Temple,2017-12-15 What is a university What is the University How have universities evolved over the centuries How might they change over the coming decades as the physical and organisational entity most identified with higher education being delivered to over 250 million students What will be the impact of digital and distance learning of commercial for profit new entrants to the higher education market of government austerity of globalization of student consumerism Exploring the origins and the concept the idea and the ideal of the university this Very Short Introduction discusses one of the world s oldest most resilient and most adaptable institutions David Palfreyman and Paul Temple consider the links between universities and the economy and the role of universities within society Highlighting some of the key questions surrounding the position of universities they ask how the university can be politically accountable for its taxpayer funding if it needs to be autonomous to function effectively as a public good Are professors professional enough in their teaching practices at a time that increasing tuition fees transform students more and more into consumers And just what does academic freedom for university faculties really entail ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *No End of a Lesson* Stuart Macintyre,André Brett,Gwilym Croucher,2017-10-02 A revolution swept through universities three decades ago transforming them from elite institutions into a mass system of higher education Teaching was aligned with occupational outcomes research was directed to practical results Campuses grew and universities became more entrepreneurial Students had to juggle their study requirements with paid work and were required to pay back part of the cost of their degrees The federal government directed this transformation through the creation of a Unified National System How did this happen What were the gains and the losses *No End of a Lesson* explores this radical reconstruction and assesses its consequences **Architectures of Art and Design Education** Neil Drabble,Rose Gridneff,2025-06-20 The art school has had a fundamental effect on society internationally influencing how the creative arts are represented and perceived At a time that funding in the UK is placing arts education in crisis this is the first book of its kind to investigate the concept of the art school and its social impact and

legacy It highlights how the physical studios and workshops designed for learning teaching and making influence and interact with the curriculum creativity and practice Beautifully illustrated with both archival and contemporary photographs many taken by the authors this book celebrates the spaces dedicated to learning and teaching creative disciplines Exploring a drastically shifting landscape in higher education it celebrates the crucial relationship between the creative working spaces and the development of creative minds A timely reflection on the current social and political climate this book emphasises the significant role that the art school has to play in society developing thriving creative industries and a wider culture of the arts Featured art schools include Chelsea College of Arts Government College of Art Chandigarh The Bauhaus Escuelas
