topic by adopting a transnational and transcultural lens and by taking non WEIRD Western Educated Industrialized Rich Democratic samples into in depth consideration The chapters therefore focus on women from diverse socio cultural political socio economic backgrounds and discuss their ways of empowering others and being empowered They also discuss related positive psychology constructs such as coping resilience transformation growth leadership creativity identity development sustainable action as well as positive socio economic political and eco sustainable thought and action The volume as a whole looks at women s leadership as a factor of empowerment A further fundamental assumption is that women s empowerment is needed to create a sustainable future at micro meso and macro levels which presumes safety peace ecological considerations and compassionate leadership

Redefining Education and Development Kaitano Dube,2024-10-18 The book aligns with the United Nations Sustainable Development Goals SDGs particularly Goal 4 which focuses on quality education It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development The book takes an interdisciplinary approach merging educational theory developmental practice and human psychology to address complex global challenges hindering sustainable development The book includes case studies and empirical research such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation These examples provide readers with practical applications of theoretical concepts and demonstrate the real world impact of educational innovations which is at the core of education delivery for all and how education touches on other areas of the SDGs The book offers valuable insights for policymakers educators and development practitioners by presenting research and theory based analyses It suggests ways to improve the academic environment to foster entrepreneurship and innovation which are key to economic development and job creation especially in regions with high youth unemployment rates The content suggests educational reforms that are responsive to the changing societal and economic landscapes The book s blend of theory and practice targets a broad audience including academic scholars students development agencies non governmental organisations and policymakers It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development In summary the book seeks to provide a comprehensive exploration of the nexus between education development and human needs in the context of the SDGs offering innovative perspectives and practical solutions to equip readers to contribute to sustainable global development

Bantu Authorities Veronica Ehrenreich-Risner,2022-02-18 In *Bantu Authorities Apartheid s System of Race and Ethnicity* Veronica Ehrenreich Risner provides the first holistic study of the Bantu Authorities BA system that implemented rural apartheid The system extended segregation by including ethnos theory to establish underfunded self governing homelands to curb the expense of native administration yet retain control of the cheap labor upon which white capital depended Based on over sixty interviews with Zulus and former commissioners and archival research *Bantu Authorities* proves the primary objective of the system was

to protect white capital with white racial purity secondary Ehrenreich Risner argues that the system disrupted the Brownlee tradition of guardianship for commissioners and the tradition of reciprocity for ubukhosi Bantu Authorities ends by examining the lingering consequences of rural apartheid and asks what rural Africans have gained with majority rule when they remain bound to BA structures Publication Series of the University of Zululand University of Zululand
