conflicted politics and its confrontation with official commemorative discourse and practice during the Decade of Centenaries He investigates how and why the myriad social political cultural and economic changes that have defined postconflict Northern Ireland have been experienced by Loyalists as a culture war and how commemoration is the means by which they confront and challenge the perceived erosion of their identity He reveals the ways in which this brings Loyalists into conflict not only with the politics of Irish Nationalism but with the peacebuilding state and crucially with each other He demonstrates how commemoration works to reproduce the intracommunal conflicts that it claims to have overcome and interrogates its nuanced and perhaps counterintuitive function in conflict transformation

Neu, 2025-03-04 Provides vital new evidence that Union veterans remained stubbornly opposed to the nation's reconciliationist tendencies and unwilling to surrender the causes for which they fought Union soldiers service to the nation did not end in 1865 Instead it persisted well into the twentieth century as hundreds of thousands of veterans joined the Grand Army of the Republic GAR and directed the reform and improvement of their communities through their fraternal membership in thousands of local posts around the country In *Our Onward March* Jonathan D Neu shows how Union veterans of the GAR drew on lessons they learned in the Civil War lessons about broad principles like democracy freedom and loyalty to undertake grassroots civic projects designed to address the rampant social ills and challenging foreign policy issues associated with US modernization Armed this time with sage wisdom and unwavering principles they mobilized again to consummate their wartime victory with reform minded activism on behalf of establishing an even more perfect Union Extending the boundaries of America's post Civil War era Neu investigates the GAR during the Progressive era a period in the organization's history that scholars have overlooked Countering stubborn notions that the GAR was merely a pension advocacy group or an insular bastion of sentimental nostalgia he reveals instead that the organization reached a turning point in 1890 after which it became an active and decentralized civic association whose members worked to instill a commitment to public life engagement with community issues and pride in the democracy they had defended as young men

Anchored by illuminating new source material including post minute books and fraternal records Our Onward March places aging GAR members squarely among the diverse constellation of turn of the century social reformers using their memory of the Civil War to promote robust veteran led civic engagement By situating Union veterans in this context we see a more accurate portrait of the GAR post in American culture as a local center of progressive activism **Teaching English** Carol Evans,Alyson Midgley,Phil Rigby,Lynne Warham,Peter Woolnough,2009-03-26 Reflective practice is at the heart of effective teaching and this book helps you develop into a reflective teacher of English Everything you need is here guidance on developing your analysis and self evaluation skills the knowledge of what you are trying to achieve and why and examples of how experienced teachers deliver successful lessons The book shows you how to plan lessons how to make good use of resources and how to assess pupils progress effectively Each chapter contains points for reflection which encourage you to break off from your reading and think about the challenging questions that you face as a new teacher The book comes with access to a companion website www.sagepub.co.uk/secondary where you will find Videos of real lessons so you can see the skills discussed in the text in action Links to a range of sites that provide useful additional support Extra planning and resource materials If you are training to teach English this book will help you to improve your classroom performance by providing you with practical advice but also by helping you to think in depth about the key issues It also provides examples of the research evidence that is needed in academic work at Masters level essential for anyone undertaking an M level PGCE
