Busing Zebulon Vance Miletsky,2022-11-29 In many histories of Boston African Americans have remained almost invisible Partly as a result when the 1972 crisis over school desegregation and busing erupted many observers professed shock at the

overt racism on display in the cradle of liberty Yet the city has long been divided over matters of race and it was also home to a far older Black organizing tradition than many realize A community of Black activists had fought segregated education since the origins of public schooling and racial inequality since the end of northern slavery Before Busing tells the story of the men and women who struggled and demonstrated to make school desegregation a reality in Boston It reveals the legal efforts and battles over tactics that played out locally and influenced the national Black freedom struggle And the book gives credit to the Black organizers parents and children who fought long and hard battles for justice that have been left out of the standard narratives of the civil rights movement What emerges is a clear picture of the long and hard fought campaigns to break the back of Jim Crow education in the North and make Boston into a better more democratic city a fight that continues to this day *The Battle for the Black Mind* Karida L. Brown,2025-05-13 From a NAACP award winning historian and Fulbright scholar a history of education in the United States from the end of the Civil War to the historic ruling of Brown v Board of Education In *The Battle for the Black Mind* Dr Karida Brown explores the struggle to define and control the education of African Americans amid shifting societal attitudes and forms of systemic exclusion From the perspective of freed slaves seeking empowerment and liberation through education to the white elites aiming to shape the future of the workforce and consolidate power *The Battle for the Black Mind* explores the formation of segregated education systems and the influence of philanthropic organizations religious institutions and Black educators themselves in shaping these structures It also examines the global reach of these education models particularly their impact on African societies under colonial rule Ultimately Dr Brown presents a critical investigation of the foundational roots of racial inequality in American education arguing that it wasn't just about the separation of institutions but about controlling access to the ideals of American democracy

Black Portsmouth Mark Sammons,Valerie Cunningham,2004 Few people think of a rich Black heritage when they think of New England In the pioneering book *Black Portsmouth* Mark J Sammons and Valerie Cunningham celebrate it guiding the reader through more than three centuries of New England and Portsmouth social political economic and cultural history as well as scores of personal and site specific stories Here we meet such Africans as the likely negro boys and girls from Gambia who debarked at Portsmouth from a slave ship in 1758 and Prince Whipple who fought in the American Revolution We learn about their descendants including the performer Richard Potter and John Tate of the People's Baptist Church who overcame the tragedies and challenges of their ancestors enslavement and subsequent marginalization to build communities and families found institutions and contribute to their city region state and nation in many capacities Individual entries speak to broader issues the anti slavery movement American religion and foodways for example We also learn about the extant historical sites important to Black Portsmouth including the surprise revelation of an African burial ground in October 2003 as well as the extraordinary efforts being made to preserve remnants of the city's early Black heritage *Encyclopedia of Historians and Historical Writing* Kelly Boyd,2019-10-09 The Encyclopedia of Historians and

Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Race and Form Dejin Xu, 2007 This study presents a contextualized narratology of African American autobiography The author compares eight autobiographies by seven African American writers from different periods namely Frederick Douglass Booker T Washington W E B Du Bois Zora Neale Hurston Richard Wright Maya Angelou and Gwendolyn Brooks and focuses on both the issue of race and such formal elements as temporal arrangement narrative situation narrative perspective present tense commentary unreliability as well as audience In addition to proposing a major framework for the narratology of autobiography in the opening chapter the succeeding practical analyses draw on other approaches such as stylistics and rhetoric which complement narratology in the investigation of how a story is presented

W.E.B. Du Bois and The Souls of Black Folk Stephanie Jo Shaw, 2013 W E B Du Bois and The Souls of Black Folk *Critical Race Consciousness* Gary Peller, 2015-10-23 Despite the apparent racial progress reflected in Obama's election the African American community in the United States is in a deep crisis on many fronts economic intellectual cultural and spiritual This book sets out to trace the ideological roots of this crisis Challenging the conventional historical narrative of race in America Peller contends that the structure of contemporary racial discourse was set in the confrontation between liberal integrationism and black nationalism during the 1960s and 1970s Arguing that the ideology of integration that emerged was highly conservative apologetic and harmful to the African American community this book is sure to provide a new lens for studying and learning from American race relations in the twentieth century

Marginality, Power and Social Structure Rutledge M. Dennis, 2005-04-08 The articles in this book are intended to be a much needed corrective to the literature on marginality In the recent past and at present the concept of marginality has been used with little specificity and when used with specificity the delineation of the complex dimensions of the term has been less than satisfactory To illustrate the many ways in which marginality exists and operates in many societies Rutledge Dennis has assembled a rich array of articles designed to highlight the history and evolution of the concept of marginality along with the theorists issues and situations which prompted the use of the term and the issues for which the term is applicable today The very title of the volume comes into play here because though many of the early marginality theorists took the term into the realm of psychology the contributors to this volume who discussed the theory highlighted the social structural foundation of marginality Dennis sought a marriage of theory and research while assembling the articles for this volume For this reason he actively sought papers which used divergent research strategies to uncover the existence of marginality in its various forms and contexts Thus some of the papers utilize ethnographic and life history approaches whereas others use statistical analysis and historical data analysis In addition to theoretical and methodological concerns a major theme for this volume is the combination of both theory and method towards an investigation of issues and problems emanate from the social structure and are closely linked to power and domination

The Paralysis of Analysis in African American Studies Stephen Ferguson II, 2023-09-21 Stephen C Ferguson II provides a philosophical examination of Black popular culture for the first time From extensive discussion of the philosophy and political economy of Hip Hop music through to a developed exploration of the influence of the postmodernism poststructuralist ideology on African American studies he argues how postmodernism ideology plays a seminal role in justifying the relationship between corporate capitalism and Black popular culture Chapters cover topics such as cultural populism capitalism and Black liberation the philosophy of Hip Hop music and Harold Cruse s influence on the cultural turn in African American studies Ferguson combines case studies of past and contemporary Black cultural and intellectual productions with a Marxist ideological critique to provide a cutting edge reflection on the economic structure in which Black popular culture emerged He highlights the contradictions that are central to the juxtaposition of Black cultural artists as political participants in socioeconomic struggle and the political participants who perform the rigorous task of social criticism Adopting capitalism as an explanatory framework Ferguson investigates the relationship between postmodernism as social theory current manifestations of Black popular culture and the theoretical work of Black thinkers and scholars to demonstrate how African American studies have been shaped
