Vervaele, 2022-02-17 This book focuses on the enforcement aspect of tobacco control policy and argues that the intense regulation of the tobacco market will never be successful as long as it can be circumvented by the availability of illicit tobacco products Yet current efforts to combat illicit tobacco trade are insufficient suffering from several flaws and gaps at the regulatory and operational levels The aim of this book is to provide an analysis of the legal framework and practice of enforcement with regard to illicit tobacco products Combining criminological and legal perspectives it presents and critically analyses the phenomenon of illicit tobacco trade as well as the policies legal frameworks and practices in six EU countries with regard to combatting this phenomenon assessing the strengths and weaknesses of their approaches Furthermore it studies the relationship between the EU and third countries e g Ukraine in terms of how the EU can influence policy and enforcement in these countries in order to counter illicit tobacco trafficking Not exclusively focusing on the EU the book also includes an analysis of enforcement against illicit tobacco products in the US The EU Member States analysed in the book Belgium Germany Italy Latvia the Netherlands and Poland reflect the range of currently available approaches Some of them have ratified the WHO Protocol against tobacco smuggling others have not They belong to different legal traditions and face different challenges due to their respective border situations While Belgium and the Netherlands are key entry ports to the EU Poland and Latvia represent the Eastern land border of the EU with various regional challenges Italy has a long maritime border where trafficking is possible from Northern Africa and from the Middle East It also has significant experience in fighting organised crime Lastly Germany is the largest market in Europe and situated in the middle of these trafficking routes

**The Making of Romantic Love** William M. Reddy, 2024-05-31 In the twelfth century the Catholic Church attempted a thoroughgoing reform of marriage and sexual behavior aimed at eradicating sexual desire from Christian lives Seeking a refuge from the very serious condemnations of the Church and relying on a courtly culture that was already preoccupied with honor and secrecy European poets romance writers and lovers devised a vision of love as something quite different from desire Romantic love was thus born as a movement of covert resistance In *The Making of Romantic Love Longing and Sexuality in Europe South Asia and Japan*

William M Reddy illuminates the birth of a cultural movement that managed to regulate selfish desire and render it innocent or innocent enough Reddy strikes out from this historical moment on an international exploration of love contrasting the medieval development of romantic love in Europe with contemporaneous eastern traditions in Bengal and Orissa and in Heian Japan from 900 1200 CE where one finds no trace of an opposition between love and desire In this comparative framework Reddy tells an appealing tale about the rise and fall of various practices of longing underscoring the uniqueness of the European concept of sexual desire Chronicles of the first planters of the colony of Massachusetts bay, collected and illustr. with notes, by A. Young Alexander Young, 1846

society the castles and clothing weapons and transportation food drink and table etiquette to the behavior prescribed and practiced at tournaments knighting ceremonies and great princely feasts The courtly knight and courtly lady and the transforming idea of courtly love are seen through the literature that celebrated them and we learn how literacy among an aristocratic laity spread from France through Germany and became the basis of a cultural revolution At the same time Bumke clearly challenges those who have comfortably confused the ideals of courtly culture with their expression in courtly society
