Passbook prepares you for your test by allowing you to take practice exams in the subjects you need to study It provides
hundreds of questions and answers in the areas that will likely be covered on your upcoming exam **digitalSTS** Janet
Vertesi, David Ribes, 2019-05-07 New perspectives on digital scholarship that speak to today's computational realities
Scholars across the humanities social sciences and information sciences are grappling with how best to study virtual
environments use computational tools in their research and engage audiences with their results Classic work in science and
technology studies STS has played a central role in how these fields analyze digital technologies but many of its key examples
do not speak to today's computational realities This groundbreaking collection brings together a world class group of
contributors to refresh the canon for contemporary digital scholarship In twenty five pioneering and incisive essays this
unique digital field guide offers innovative new approaches to digital scholarship the design of digital tools and objects and
the deployment of critically grounded technologies for analysis and discovery Contributors cover a broad range of topics

including software development hackathons digitized objects diversity in the tech sector and distributed scientific collaborations They discuss methodological considerations of social networks and data analysis design projects that can translate STS concepts into durable scientific work and much more Featuring a concise introduction by Janet Vertesi and David Ribes and accompanied by an interactive microsite this book provides new perspectives on digital scholarship that will shape the agenda for tomorrow's generation of STS researchers and practitioners
