**Concept-Rich Mathematics Instruction** Meir Ben-Hur, 2006-06-15 Have you ever wondered why students too often have only a rudimentary understanding of mathematics why even rich and exciting hands on learning does not always result in real learning of new concepts The answer lies in whether students have actually learned mathematical concepts rather than merely memorizing facts and formulas Concept Rich Mathematics Instruction is based on the constructivist view that concepts are not simply facts to be memorized and later recalled but rather knowledge that learners develop through an active process of adapting to new experiences The teacher's role is critical in this process When teachers prompt students to reflect on their experiences and report and answer questions verbally students must re-examine and even

revise their concepts of reality Meir Ben Hur offers expert guidance on all aspects of Concept Rich Mathematics Instruction including Identifying the core concepts of the mathematics curriculum Planning instructional sequences that build upon concepts that students already understand Designing learning experiences that provoke thoughtful discussions about new concepts and prepare students to apply these concepts on their own Identifying student errors particularly those caused by preconceptions as important sources of information and as key instructional tools Conducting classroom dialogues that are rich in alternative representations Using a variety of formative assessment methods to reveal the state of students learning Incorporating problem solving activities that provoke cognitive dissonance and enhance students cognitive competence Concept Rich Mathematics Instruction is grounded in the belief that all students can learn to think mathematically and solve challenging problems If you re looking for a powerful way to improve students performance in mathematics and move closer to fulfilling the NCTM standards look no further this approach provides the building blocks for constructing a first class mathematics program Note This product listing is for the reflowable ePub version of the book
