Study Tip

Gather Materials

Tell students to gather the materials they will need before they begin to study. Explain that students should also have available a few sheets of blank paper. As students study, they can write or sketch key ideas. Tell students that putting key ideas on paper can help them understand and remember the ideas later.

Thinking Visually

- a. A fundamental unit of measurement
- b. Meter
- c. A unit of measurement that is formed by combining base units
- d. Cubic meter (m^3)

Assessment

If your class subscribes to the Interactive Textbook, your students can go online to access an interactive version of the Student Edition and a self-test.

Reviewing Content

Understanding Concepts

11. Example: The study of Mars falls under the branch of space science. However, studying Mars might also involve analyzing the chemistry of substances found on Mars, which falls under physical science. If scientists search for evidence of life on Mars, then their studies might also fall under life science.
12. The goal of any scientific method is to solve a problem or to better understand an observed event.
13. Controlled experiments are useful in that they can show how one variable (the responding variable) changes with respect to another variable (the manipulated variable), while the remaining variables are controlled.
14. You might modify your hypothesis or formulate a new hypothesis based on your experimental results.

Study Guide

1.1 What is Science?

Key Concepts

- Science begins with curiosity and often ends with discovery.
- Science and technology are interdependent. Advances in one lead to advances in the other.
