**Five Foundations of Human Development** Errol A. Gibbs, Philip A. Grey, 2011-06-08 Five Foundations of Human Development FFHD is a philosophical religious and practical discourse on human development based on the following five foundations Spiritual Moral Social Intellectual and Physical The authors proffer that human beings possess the capacity to rise to a higher state of civilization when we allow Spiritual Intelligence to underpin human intelligence as our capable guide The indomitable spirit within human beings that brought civilization out of the Dark Ages and into an Age of Enlightenment demonstrates our capacity to transcend moral hope and optimism for a better world with peaceful coexistence among individuals families and nations This book will help inform enlighten and empower individuals and leaders in such fields as engineering science religion politics the military and other great institutions to engender solutions to the myriad of unsolved problems of past centuries problems of the present and emerging problems of the future Problems such as wars genocide

greed and the exploitation of human beings begin within our destructive spiritual nature and manifest in the physical nature Therefore solutions also lie in the spiritual realm as a counterbalance to the natural realm of human existence FFHD is a blueprint for human survival based on adherence to physical laws and spiritual laws that transcend a belief in an omnipotent all powerful omnipresent everywhere and omniscient all knowing being It will awaken the conscience to comprehend the lifethreatening issues that face humankind The solutions therefore cannot merely be left only to the educated elite the military forces and those in high public and private office The global significance of this book is that it informs a more communal view of our world It is the only perspective that will allow us to enter the global village prepared for the racial social cultural environmental and economic challenges that lie ahead *Hamas and Ideology* Shaul Bartal, Nesya Rubinstein-Shemer, 2017-11-28 Sheikh Yusuf al Qaradawi is regarded as the most influential contemporary Muslim religious figure His best selling book *Al al wal aram fi al Islam The Forbidden and the Permitted in Islam* is perhaps one of the most widely read Islamic works after the Qur'an The subject of jihad in Palestine is a salient feature of Qaradawi's thought and is addressed frequently in his books His views on Israel and on the Jews shape those of many Muslims throughout the world This book paints al Qaradawi's portrait within the context of the subject of the struggle for Palestine and assesses why he is committed so fervently to the Palestinian cause It also sheds light on another important aspect of al Qaradawi's thought namely the marked contrast between his ideas regarding the Muslim world and his views on relations with other religions and countries Whereas al Qaradawi is considered to be a moderate in Islamic matters his attitude toward the Jews and to Israel is one of abiding hatred and uncompromising struggle The book aims to classify Qaradawi's thought along the axis of moderation and extremism by drawing comparisons between Qaradawi's teachings and those of other Muslim jurists Furthermore it compares the features of antisemitic writing with that of Qaradawi in order to answer the question as to whether Qaradawi's teachings actually constitute an expression of anti semitism Despite the subject of jihad in Palestine being so central to Qaradawi's thought there has not been a comprehensive and systematic academic study of this to date The book therefore represents a major contribution to the field and will appeal to anyone studying the Israel Palestine conflict Islamic Studies Jewish Studies Terrorism and Political Violence
