We always ask testers to identify their favorite graphics. This year we took it a step further, with an in-house staff vote. Remarkably, the favorites were all from the same brand. the strongest, strongest, and finally, pressure is a lot like with these skis, which are built for men and women—including two innovative tube-mode boots in the Pennacchi line that racked up models in this year's test. (Shown: **Pennacchi 120** (left).) Line is well known in Italy's boot manufacturing centers as the **Rocca Group**, a place where other companies (such as Full Tilt) get their boots built. They already had a place in the European market but now have teamed with ATBNT to tackle North America. Testers liked the medium-width **6.5** (shown) for its tube mode, good ski performance, and great price. Scott acquired Garmont, including a couple of tester-fave alpine boots, the **G2** and **G2 120** (shown) and a variety of proven AT options, including the men's **Dellium** and women's **Rayburn**. —M.E.

Fits to Be Tried

Testers agreed that the boot industry is taking greater strides than ever with width classification (shown as last width, measured in millimeters at the forefoot of a size 26 shoe). One brand's narrow boot might fit like another's wide. Lengths vary as well in a given size—some fit short, some long. So even though there are more great-fitting boots on the market than ever, it's a treat for all the skiers trying to navigate the choices. The upshot? You still need a good shop to put you through the options, and there's no substitute for trying them all on. —M.E.
