Martelli,2017-09-25 With a clear comparative approach this volume brings together for the first time contributions that cover different periods of the history of ancient pharmacology from Greek Byzantine and Syriac medicine to the Rabbinic Talmudic medical discourses This collection opens up new synchronic and diachronic perspectives in the study of the ancient traditions of recipe books and medical collections Besides the highly influential Galenic tradition the contributions will focus on less studied Byzantine and Syriac sources as well as on the Talmudic tradition which has never been systematically investigated in relation to medicine This inquiry will highlight the overwhelming mass of information about drugs and remedies which accumulated over the centuries and was disseminated in a variety of texts belonging to distinct cultural milieus Through a close analysis of some relevant case studies this volume will trace some paths of this transmission and transformation of pharmacological knowledge across cultural and linguistic boundaries by pointing to the variety of disciplines and areas of expertise involved in the process

Race and Beauty Josie Schoel,2025-04-29 This work examines how beauty standards specifically the ideology of fairness contributed to the racialization of bodies in early modern England Schoel emphasizes the need to dismantle whiteness s invisibility in historical criticism noting that it has long been an unexamined norm By focusing on the materiality of cosmetic whiteness the text aims to disrupt colorblind ideologies and reveal the mechanisms behind white supremacy Drawing on diverse texts like sonnets travel literature and medical treatises the book discusses how light skin and hair were idealized symbolizing Christian virtue and femininity This rhetoric of fairness not only promoted racial hierarchies but also constructed whiteness through cosmetics like whitening creams and exfoliants These practices associated with Queen Elizabeth I s image and widely reproduced in theater medicine and household texts led to a cult of whiteness The locus of the cult was Queen Elizabeth I whose materially constructed reds and whites in her portraiture and on the surface of her skin resounded throughout the commonwealth If the cult of whiteness was founded by Elizabeth s propagandistic image campaign it was facilitated and reproduced through theatrical productions medical treatises household manuals and the birth of the apothecary which made the materials of whiteness accessible to a wider socially diverse network of consumers The book is not only an ideal resource for students and scholars of early modern studies performance and Critical Race Studies but for all those seeking an introduction to constructions of race in early modern England
