

The background of the entire image is a complex, swirling pattern of grey, white, and brown tones, resembling a marbled paper or a fluid vortex. The swirls are concentric and radiate from a central point, creating a sense of motion and depth. The colors are muted and earthy, with the grey and brown tones being more prominent than the white.

Slipping Away Mark Moberg, 2008 During the 1990s the Eastern Caribbean was caught in a bitter trade dispute between the US and EU over the European banana market When the World Trade Organization rejected preferential access for Caribbean growers in 1998 the effect on the region's rural communities was devastating This volume examines the banana wars from the vantage point of St Lucia's Mabouya Valley whose recent turbulent history reveals the impact of global forces The author investigates how the contemporary structure of the island's banana industry originated in colonial policies to create a politically stable peasantry followed by politicians' efforts to mobilize rural voters These political strategies left farmers dependent on institutional and market protection leaving them vulnerable to any alteration in trade policy This history gave way to a new harsh reality in which neoliberal policies privilege price and quantity over human rights and the environment However against these challenges the author shows how the rural poor have responded in creative ways including new social movements and Fair Trade farming in order to negotiate a stronger position for themselves in a shifting global economy **BOOK JACKET** **A dictionary, English-Latin, and Latin-English ... sophisticated way that Whorf's ideas were very lucid ones even if Whorf's insights were framed in a terminology which lacked the flexibility of linguistic categories developed over the last quarter of this century especially in cognitive linguistics. To date there is sufficient proof to claim that linguistic relativity is indeed a vital issue and the current volume confirms a more general trend for rehabilitating Whorf's theory complex and also offers evidence for it. It contains articles written by scholars from various fields of linguistics including phonology psycholinguistics language acquisition historical linguistics anthropological linguistics and cross cultural semantics which all contribute to a re-evaluation and partial reformulation of Whorf's thinking.
