Trail

Of A Missing Damsel Abhijeet Singh,2025-05-13 A woman on the run A village haunted by whispers A forest that devours children And secrets worth killing for She arrives like a whisper of doom her clothes stained with blood and her legs barely holding her up Vishakha stumbles into Devran a secluded village deep within the Mughal Empire carrying a secret that could change everything But Devran has its own ghost whispers of a girl taken by the cursed forest a mystery that haunts its people like an unbroken spell The secret she is carrying is trouble big enough that the evil chasing her would burn the village to the ground just for hiding her Vishakha must escape before its wrath descends upon the village But with her wounds deep

and her time slipping away every minute she lingers feels like a countdown The evil closes in Vishakha must outpace them to place her secret in hands that can be trusted In this treacherous dance of trust and terror she teeters on a razor s edge one misstep could bury the truth forever or spark a reckoning that consumes them all The chase has begun Architecture on the Borderline Anoma Pieris,2019-06-25 Architecture on the Borderline interrogates space and territory in a turbulent present where nation state borders are porous to a few but impermeable to many It asks how these uneven and conflicted social realities are embodied in the physical and material conditions imagined produced or experienced through architecture and urbanism Drawing on historical global examples this rich collection of essays illustrates how empires nations and cities expand their frontiers and contest boundaries but equally how borderline identities of people and places influence or expose these processes Empirical chapters covering Central Asia the Asia Pacific region the American continent Europe and the Middle East offer multiple critical insights into the ways in which our spatial imagination is contingent on border thinking on the ways of being and navigating frontiers boundaries and margins the three themes used to organise their content The underlying premise of the book is that sensitisation to border conditions can alter our understanding of the static physical spaces that service political or cultural ideologies and that the view from the periphery opens up new ways of understanding sovereignty In exploring these various spaces and their transformative subjectivities this book also reveals the unrelenting precarity of contesting and living on the margins and related spaces and discourses that are neglected or suppressed
