Military Politics Thomas Crosbie, 2023-07-14 Bringing together new research by leading scholars this volume rethinks the role played by militaries in politics It introduces new theories of military politics arguing against the inherited theories and practices of civil military relations and presents rich new data on senior officership and on the intersection of military politics and military operations As the first volume in Berghahn Books Military Politics series it provides a blueprint for a new research paradigm dedicated to tracing how militaries shape their political environments focusing particularly on the core democratic questions raised by politically effective and ineffective militaries

Iran's Rocket and Missile Forces and Strategic Options Anthony H. Cordesman, 2015-01-23 Iran s rocket and missile forces serve a wide range of Iranian strategic objectives These forces range from relatively short range artillery rockets that support its ground forces and limit the need for close air support to long range missiles that can reach any target in the region and the development of booster systems that might give Iran the ability to strike at targets throughout Europe and even in the United States Iran s forces and systems are steadily evolving While the lethality of most current systems is limited by a reliance on conventional warheads poor accuracy and uncertain reliability Iran is developing steadily improved guidance systems

attempting to improve the lethality of its conventional warheads and has at least studied arming its missiles with nuclear warheads

Parameters ,2015 *Building Resilience to Trauma* Elaine Miller-Karas,2015-02-20 After a traumatic experience survivors often experience a cascade of physical emotional cognitive behavioral and spiritual responses that leave them feeling unbalanced and threatened Building Resilience to Trauma explains these common responses from a biological perspective reframing the human experience from one of shame and pathology to one of hope and biology It also presents alternative approaches the Trauma Resiliency Model TRM and the Community Resiliency Model CRM which offer concrete and practical skills that resonate with what we know about the biology of trauma In programs co sponsored by the World Health Organization the Unitarian Universalist Service Committee ADRA International and the department of behavioral health of San Bernardino County the TRM and the CRM have been used to reduce and in some cases eliminate the symptoms of trauma by helping survivors regain a sense of balance Clinicians will find that they can use the models with almost anyone who has experienced or witnessed any event that was perceived as life threatening or posed a serious injury to themselves or to others The models can also be used to treat symptoms of vicarious traumatization and compassion fatigue

Ethical Challenges for Military Health Care Personnel Daniel Messelken,David Winkler,2017-10-18 This book examines the issue of ethics in the context of the provision of military health care in an epidemic Outbreaks of epidemics like Ebola trigger difficult ethical challenges for civilian and military health care personnel This book offers theoretical reflections combined with reports from recent military and NGO missions in the field The authors of this volume focus on military medical ethics adding a distinct voice to the topic of epidemics and infectious diseases While military health care personnel are always crucially involved during disaster relief operations and large scale public health emergencies most of the current literature treats ethical issues during epidemics from a more general perspective without taking into account the specifics of the military context The contributions in this volume provide first hand insights into some of the ethical issues encountered by military health care personnel in missions during the Ebola outbreak in 2014 2015 This practical perspective is complimented by academic analyses and theoretical reflections on ethical issues associated with epidemics This book will be of much interest to students of military studies ethics and African politics

Landpower in the Long War Jason W. Warren, 2019-06-14 War and landpower's role in the twenty first century is not just about military organizations tactics operations and technology it is also about strategy policy and social and political contexts After fourteen years of war in the Middle East with dubious results a diminished national reputation and a continuing drawdown of troops with perhaps a future force increase proposed by the Trump administration the role of landpower in US grand strategy will continue to evolve with changing geopolitical situations *Landpower in the Long War* Projecting Force After 9 11 edited by Jason W Warren is the first holistic academic analysis of American strategic landpower Divided into thematic sections this study presents a comprehensive approach to a critical aspect of US foreign policy as the threat or ability to use force underpins diplomacy The text begins with more traditional issues such as strategy and civilian military relations and works its way to more contemporary topics such as how socio cultural considerations effect the landpower force It also includes a synopsis of the suppressed Iraq report from one of the now retired leaders of that effort The contributors made up of an interdisciplinary team of political scientists historians and military practitioners demonstrate that the conceptualization of landpower must move beyond the limited operational definition offered by Army doctrine in order to encompass social

changes trauma the rule of law acquisition of needed equipment civil military relationships and bureaucratic decision making and argue that landpower should be a useful concept for warfighters and government agencies
