The Judge as Political Theorist David Robertson,2010-07-01 The Judge as Political Theorist examines opinions by constitutional courts in liberal democracies to better understand the logic and nature of constitutional review David Robertson argues that the constitutional judge s role is nothing like that of the legislator or chief executive or even the ordinary judge Rather constitutional judges spell out to society the implications on the ground of the moral and practical

commitments embodied in the nation's constitution Constitutional review in other words is a form of applied political theory Robertson takes an in depth look at constitutional decision making in Germany France the Czech Republic Poland Hungary Canada and South Africa with comparisons throughout to the United States where constitutional review originated He also tackles perhaps the most vexing problem in constitutional law today how and when to limit the rights of citizens in order to govern As traditional institutions of moral authority have lost power constitutional judges have stepped into the breach radically altering traditional understandings of what courts can and should do Robertson demonstrates how constitutions are more than mere founding documents laying down the law of the land but increasingly have become statements of the values and principles a society seeks to embody Constitutional judges in turn see it as their mission to transform those values into political practice and push for state and society to live up to their ideals **Monthly Catalog of United States**
