Creating America Jesus Garcia, Donna M. Ogle, Frederick C. Risinger, Joyce Stevos, Winthrop D. Jordan, 2001-11-07 *(Re)Constructing Memory: Textbooks, Identity, Nation, and State* James H. Williams, Wendy D. Bokhorst-Heng, 2016-07-08 This book engages readers in thirteen conversations presented by authors from around the world regarding the role that textbooks play in helping readers imagine membership in the nation Authors voices come from a variety of contexts some historical some contemporary some providing analyses over time But they all consider the changing portrayal of diversity belonging and exclusion in multiethnic and diverse societies where silenced invisible marginalized members have struggled to make their voices heard and to have their identities incorporated into the national narrative The authors discuss portrayals of past exclusions around religion ethnicity sexual orientation as they look at the shifting boundaries of insider and outsider This book is thus about who we are not only demographically but also in terms of the past especially how and whether we teach discredited pasts through textbooks The concluding chapters provides ways forward in thinking about what can be done to promote curricula that are more inclusive critical and positively bonding in increasingly larger and more inclusive contexts

Textbooks and the Wars in Asia Gi-Wook Shin, Daniel C. Sneider, 2011-02-08 Over the past fifteen years Northeast Asia has witnessed growing intraregional exchanges and interactions especially in the realms of culture and economy Still the region cannot escape from the burden of history This book examines the formation of historical memory in four Northeast Asian societies China Japan South Korea and Taiwan and the United States focusing on the period from the beginning of the Sino Japanese war in 1931 until the formal conclusion of the Pacific War with the San Francisco Peace Treaty of 1951 The contributors analyse the recent efforts of Korean Japanese and Chinese scholars to write a common history of Northeast Asia and question the underlying motivations for their efforts and subsequent achievements In doing so they contend that the greatest obstacle to reconciliation in Northeast Asia lies in the existence of divided and often conflicting historical memories The book argues that a more fruitful approach lies in understanding how historical memory has evolved in each country and been incorporated into respective master narratives Through uncovering the existence of different master narratives it is hoped citizens will develop a more self critical self reflective approach to their own history and that such an introspective effort has the potential to lay the foundation for greater self and mutual understanding and eventual historical reconciliation in the region This book will be essential reading for students and scholars of Asian history Asian education and international relations in East Asia

The 'Other' Students Dina C. Maramba, Rick Bonus, 2012-12-01 Though the Filipino American population has increased numerically in many areas of the United States especially since the influx of professional immigrants in the wake of the 1965 Immigration Act their impact on schools and related educational institutions has rarely been documented and examined The Other Students Filipino Americans Education and Power is the first book of its kind to focus specifically on Filipino Americans in education Through a collection of historical and contemporary perspectives we fill a profound gap in the scholarship as we analyze the emerging presence of Filipino Americans both as subjects and objects of study in education research and practice We highlight the argument that one cannot adequately and appropriately understand the complex histories cultures and contemporary conditions faced by Filipino Americans in education unless one grapples with the specificities of their colonial pasts and presents their unique migration and immigration patterns their differing racialization and processes of identity formations the connections between diaspora and community belonging and the various perspectives offered by ethnic group centered analysis to multicultural projects The historical methodological and theoretical approaches in this anthology will be of interest to scholars researchers and students in disciplines which include Education Ethnic Studies Asian American and Pacific Islander Studies Anthropology Sociology Political Science Urban Studies Public Policy and Public Health

Asian/American Curricular Epistemicide Nicholas D. Hartlep, Daniel P. Scott, 2016-08-18 In this important book Nicholas Hartlep and Daniel Scott's detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans As Hartlep and Scott write Asian Americans have once again been constructed as the good minority that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality Over and over again the media has been telling a single story about Asian Americans to the public for the past fifty years The consequence of this fabricated story is that it discourages others even Asian Americans themselves from believing in the validity of their struggles Linshi 2014 p 1

Contested Curriculum Don Romesburg, 2025-04-15 Today many states have proposed so called Don't Say Gay bills that prohibit public school teachers from mentioning LGBTQ topics in the classroom But a few states like California have taken decisive steps in the other direction They mandate inclusive education that treats LGBTQ history as essential to the curriculum At once a history of an evolving movement and an activist handbook Contested Curriculum navigates the rocky path to LGBTQ inclusive K 12 history education in the United States and recounts the fight for a curriculum that recognizes the value of queer and trans lives What began in fits and starts in activism and educational materials across the late twentieth century led to the passage of California's landmark FAIR Education Act in 2011 ensuring that LGBTQ history has a place in the K 12 classroom Historian Don Romesburg the lead scholar who worked with advocacy organizations to pass the act recounts the decades long struggle to integrate LGBTQ content into history education policy textbooks and classrooms

Looking at California and states that followed its lead he assesses the challenges and opportunities presented by this new way of teaching history Romesburg s powerful case for LGBTQ inclusive education is all the more urgent in this era of anti gay book bans regressive legislation and attempts to diminish the vital role that inclusive and honest history education should play in a democratic nation

Comparative Perspectives on School Textbooks Dobrochna Hildebrandt-Wypych,Alexander W. Wiseman,2021-04-22 This book examines the discourses on nation building civic identity minorities and the formation of religious identities in school textbooks worldwide It offers up to date practical and scholarly information on qualitative and mixed method textbook analysis as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social political and economic groups affect textbook production and the curricular aims in different educational systems worldwide Chapters address the role of school textbooks in developing nationhood the creation of citizenship through school textbooks the complexity of gender in normative discourses and the intersection of religion and culture in school textbooks

The New Politics of the Textbook Heather Hickman,Brad J. Porfilio,2012-10-13 In an age of unprecedented corporate and political control over life inside of educational institutions this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K 16 schools to perpetuate their interests at the expense of minoritized social groups The contributors provide a comprehensive examination of how textbooks the most dominant cultural force in which corporations and political leaders impact the schooling curricula shape students thoughts and behavior perpetuate power in dominant groups and trivialize social groups who are oppressed on the structural axes of race class gender sexuality and dis ability Several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism militarism consumerism White supremacy heterosexism rugged individualism technology and a positivistic conception of the world Finally the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other to reflect upon the constitutive forces causing oppression in schools and in the wider society and to reflect upon how to challenge corporate and political dominance over knowledge production

The Language

Police Diane Ravitch, 2007-12-18 If you're an actress or a coed just trying to do a man-size job, a yes-man who turns a deaf ear to some sob sister heiress aboard her yacht or a bookworm enjoying a boy's night out, Diane Ravitch's internationally acclaimed *The Language Police* has bad news for you. Erase those words from your vocabulary. Textbook publishers and state education agencies have sought to root out racist, sexist, and elitist language in classroom and library materials. But according to Diane Ravitch, a leading historian of education, what began with the best of intentions has veered toward bizarre extremes. At a time when we celebrate and encourage diversity, young readers are fed bowdlerized texts devoid of the references that give these works their meaning and vitality. With forceful arguments and sensible solutions for rescuing American education from the pressure groups that have made classrooms bland and uninspiring, *The Language Police* offers a powerful corrective to a cultural scandal.

Lies My Teacher Told Me James W. Loewen, 2018-07-17 Every teacher, every student of history, every citizen should read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself. Howard Zinn, a new edition of the national bestseller and American Book Award winner with a new preface by the author. Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important and successful history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the *New York Times*. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems and calls out academic historians for abandoning the concept of truth in a misguided effort to be objective. What started out as a survey of the twelve leading American history textbooks has ended up being what the *San Francisco Chronicle* calls an extremely convincing plea for truth in education. In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks and a wonderful retelling of American history as it should and could be taught to American students.
