This excerpt is from an educational journal published in 1938.

The conflict is still sharpening throughout the world between two political systems. The ¹one system represents government by freedom of choice exercised by the individual citizens. In the other, an opposing system, ²individual freedom and initiative are all made subordinate to the totalitarian state. In this conflict the part which education plays in each ideology is crucial. Democracy cannot succeed unless those who express their choice are prepared to choose wisely. ³The real safeguard is education. It has been well said that ⁴no system of government gives so much to the individual or exacts so much as a democracy.
