Us News And World Report World Bank:

U.S. News & World Report ,1998 The World Bank and Non-Governmental Organizations P. Nelson,1995-10-27 This book assesses the World Bank's interaction with non governmental organizations NGOs in projects policy dialogue and elsewhere Based on extensive project documents public and private policy statements and interviews the author identifies central organizational barriers to greater collaboration and accountability and links these to the international political economy of the World Bank The author suggests guidelines for judging organizational change in the World Bank reviews opportunities and dangers for NGOs in relating with major aid donors and discusses agenda and strategy **Who Matters at the World Bank?** Kim Moloney,2022 Who Matters at the World Bank explores who matters in a 32 year history 1980 2012 of policy change within the World Bank's public sector management and public sector governance agenda and is anchored within the public administration discipline and its understanding of bureaucracy bureaucratic politics and stakeholder influences In response to constructivist scholars concerns about politics and the organizational culture of international civil servants within international organizations Kim Moloney uses stakeholder theory and a bureaucratic politics approach to suggest the normality of politics policy debate and policy evolution The book also highlights how for 21 of those 32 years it was not external stakeholders but the international civil servants of the World Bank who most influenced led developed and institutionalized this sector's agenda In so doing the book explains how one sector of the Bank's work rose against the odds from being included in just under 3% of approved projects in 1980 to 73% of all projects approved between 1991 and 2012 **The World Bank Group A to Z** World Bank Group,2014-09-30 The World Bank Group A to Z provides ready reference insight into the history mission organization policies financial services and knowledge products of the world's largest anti poverty institution *Reimagining Nigeria's Educational System* Joseph A. Balogun,2023-09-20 This book assesses the challenges within the Nigerian educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing at all levels In Nigeria many citizens believe that the solution to the country's low performance in education is to eliminate high stakes standardized testing High stakes testing refers to applying standardized student achievement tests as a primary mechanism to evaluate students teachers and their school's performance This book argues that the poor quality of education and low ranking of Nigeria's educational system is not related to the negative consequences of high stakes testing but rather is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of interest to policymakers and scholars in the fields of African education higher education quality and global studies African studies management and administration leadership and professional development studies Joseph Abiodun Balogun is former Dean and retired Distinguished University Professor at the College of Health Sciences Chicago State University USA Visiting Professor Program Consultant

at the Centre of Excellence in Reproductive Health Innovation University of Benin Nigeria and President CEO Joseph Rehabilitation Center Tinley Park Illinois USA The Raging 2020s Alec Ross,2025-09-23 In the face of unprecedented global change New York Times bestselling author Alec Ross proposes a new social contract to restore the balance of power between government citizens and business in *The Raging 2020s* For 150 years there has been a contract Companies hold the power to shape our daily lives The state holds the power to make them fall in line And the people hold the power to choose their leaders But now this balance has shaken loose As the market consolidates the lines between big business and the halls of Congress have become razor thin Private companies have become as powerful as countries As Walter Isaacson said about Alec Ross s first book *The Industries of the Future* The future is already hitting us and Ross shows how it can be exciting rather than frightening Through interviews with the world s most influential thinkers and stories of corporate activism and malfeasance government failure and renewal and innovative economic and political models Ross proposes a new social contract one that resets the equilibrium between corporations the governing and the governed *Vanishing Borders* Hilary French,2013-11-05 National governments are ill equipped for tackling transnational environmental problems from ozone depletion to soaring trade in commodities like timber and shrimp As these issues climb higher on the political agenda industrial and developing countries are on a collision course over climate change and water shortages Goods money microbes pollution people and ideas are crossing global boundaries evermore frequently The implications for our future and for the health of the planet are profound This text describes what we need to do to cope with the challenge

Congressional-Executive Commission on China Annual Report 2015 , COVID-19 and Islamic Social Finance M. Kabir Hassan,Aishath Muneeza,Adel M. Sarea,2021-03-07 It is said that the COVID 19 pandemic has turned back the poverty clock As such there is a need to have social mechanisms put in place to provide relief to those who are affected in this regard Islamic social finance consists of tools and institutions that could be used to alleviate poverty This book explores the impact of COVID 19 on Islamic finance to better understand the effectiveness of Islamic social finance in helping those who have been affected by poverty overnight due to the halt in all major economic activities in the context of the pandemic Since the struggle against poverty in each country will be different the book attempts to shed light on the experiences of different countries by presenting successful models of Islamic social finance The book first looks at poverty and COVID 19 before delving into the role of Islamic social financial institutions and how they have risen against COVID 19 The book concludes by examining the impact of COVID 19 on Islamic microfinance This book is the first of its kind on the subject of COVID 19 and it intends to bridge the gap in the literature **Globalization and the Cultures of Business in Africa** Scott D. Taylor,2012-09-05 Can Africa develop businesses beyond the extractive or agricultural sectors What would it take for Africa to play a major role in global business By focusing on recent changes Scott D Taylor demonstrates how Africa s business culture is marked by an unprecedented receptivity to private enterprise Challenging persistent stereotypes about crony

capitalism and the lack of development Taylor reveals a long and dynamic history of business in Africa He shows how a hospitable climate for business has been spurred by institutional change globalization and political and economic reform Taylor encourages a broader understanding of the mosaic of African business and the diversity of influences and cultures that shape it *Fourteen Points for the Twenty-First Century* Richard H. Immerman, Jeffrey A. Engel, 2020-06-23 When the United States entered World War I President Woodrow Wilson declared to Congress that the objective was not merely to bring a new balance of power but rather to bring a just and secure peace to the world by the end of the conflict In this famous speech known as The Fourteen Points Wilson offered the world a road map toward a more equitable international system in the midst of unprecedented global conflict including ideas on the interconnectedness of democracy trade and the concept of a forum for peaceably resolving international disputes Even decades after the end of the First World War Wilson's ideas remained important and influenced many of his successors But now in the twenty first century there are forces at work in the world that Wilson could never have imagined and those forces call for a new plan toward peace In *Fourteen Points for the Twenty First Century A Renewed Appeal for Cooperative Internationalism* Richard H Immerman and Jeffrey A Engel bring together a diverse group of thinkers who take up Wilson's call for a new world order by exploring fourteen new directions for the twenty first century The contributors scholars policymakers entrepreneurs poets doctors and scientists propose solutions to contemporary challenges such as migration global warming health care food security and privacy in the digital age Taken together these points challenge American leaders and policymakers to champion an international effort not to make America great again but to work cooperatively with other nations on the basis of mutual respect **A Human Algorithm** Flynn Coleman, 2020-10-20 A groundbreaking narrative on the urgency of ethically designed AI and a guidebook to reimagining life in the era of intelligent technology The Age of Intelligent Machines is upon us and we are at a reflection point The proliferation of fast moving technologies including forms of artificial intelligence akin to a new species will cause us to confront profound questions about ourselves The era of human intellectual superiority is ending and we need to plan for this monumental shift *A Human Algorithm How Artificial Intelligence Is Redefining Who We Are* examines the immense impact intelligent technology will have on humanity These machines while challenging our personal beliefs and our socioeconomic world order also have the potential to transform our health and well being alleviate poverty and suffering and reveal the mysteries of intelligence and consciousness International human rights attorney Flynn Coleman deftly argues that it is critical that we instill values ethics and morals into our robots algorithms and other forms of AI Equally important we need to develop and implement laws policies and oversight mechanisms to protect us from tech's insidious threats To realize AI's transcendent potential Coleman advocates for inviting a diverse group of voices to participate in designing our intelligent machines and using our moral imagination to ensure that human rights empathy and equity are core principles of emerging technologies Ultimately *A Human Algorithm* is a clarion call for building a more humane future and moving

conscientiously into a new frontier of our own design Coleman argues that the algorithms of machine learning if they are instilled with human ethics and values could bring about a new era of enlightenment San Francisco Chronicle

Contextualizing and Organizing Contingent Faculty Ishmael I. Munene, 2018-02-15 *Contextualizing and Organizing Contingent Faculty* Reclaiming Academic Labor in Universities seeks to develop a counterculture that eschews the neoliberal ideology and interlocking market values in higher education More than merely lamenting the disruptive effects of these marketplace values in higher education institutions it develops both theoretical insights and practical organizing strategies pertinent to challenging new academic capitalist values and behaviors Contributors local and international present cases from various institutions to illuminate how national trends concerning contingent faculty are articulated implemented and challenged at the local level They present organizing strategies which are analyzed from an interdisciplinary perspective providing a thorough and comprehensive view of the contingent labor movement This book will provide useful lessons to a broad array of audiences in universities labor movements and national and local governments *A Search for Solvency*

Alfred E. Eckes, Jr., 2014-07-03 Diverted by the dramatic military and political events of July 1944 few Americans realized the significance of an international conference taking place at Bretton Woods a mountain resort in New Hampshire far from the battle zones There United Nations experts were completing plans for a world monetary and financial system that they hoped would create a prosperous efficient global economy and avert economic tensions that might lead to another world war Until the dollar crisis of 1971 decisions made at Bretton Woods provided the institutions and rules for international finance The conference ushered in an era of unprecedented expansion of world trade and prosperity Based on extensive research in previously unavailable sources *A Search for Solvency* relates intriguing and often complicated issues of economic analysis and diplomatic history It offers a succinct and comprehensive survey of international monetary development from the collapse of the pre World War I gold standard to the devaluation of the dollar in 1971 In effect it explains the origins of late twentieth century global inflation and currency problems The author details how the ghost of the Great Depression the failure of monetary reconstruction efforts after World War I and the memory of the nineteenth century gold standard guided efforts to construct the Bretton Woods system This preoccupation with the past as well as political constraints produced a monetary system protected against past dangers fluctuating currencies controls and deflation but dangerously vulnerable to inflationary pressures The weaknesses of Bretton Woods a system geared to an era in which economic power was concentrated in the United States became visible in the 1960s and painfully apparent by the mid 1970s ***Shaping the***

Developing World Andy Baker, 2021-01-07 Why are some countries rich and others poor Colonialism globalization bad government gender inequality geography and environmental degradation are just some of the potential answers to this complex question Using a threefold framework of the West the South and the natural world *Shaping the Developing World* provides a logical and intuitive structure for categorizing and evaluating the causes of underdevelopment This

interdisciplinary book also describes the social political and economic aspects of development and is relevant to students in political science international studies geography sociology economics gender studies and anthropology The Second Edition has been updated to include the most recent development statistics and to incorporate new research on topics like climate change democratization religion and prosperity the resource curse and more This second edition also contains expanded discussions of gender financial inclusion crime and police killings and the Middle East including the Syrian Civil War **The Post-Pandemic Business Playbook** Ofer Mintz, 2022-02-12 COVID 19 forced a dramatic change to customer behavior that resulted in an economic crisis not witnessed by anyone alive Businesses can no longer operate as before because their customers are no longer operating as before This book provides customer centric based guidance for how businesses should adapt to this new reality deriving insights from academic research case studies interviews and best practice examples from around the world As validated by hundreds of top level executives its readers will gain a better understanding of why customer behavior has changed so they can use the book s solutions to navigate through and succeed in the post COVID 19 future **A Triple Bottom Line Analysis of Global Consumption** Joy Murray, Anne Owen, Moana Simas, Arunima Malik, 2022-05-25 This book adds a whole new dimension to the editors previous work on the social economic and environmental effects of global trade For the first time it brings all three pillars of sustainability together into one coherent multiregional input output MRIO framework It shows the power of MRIO analysis to illuminate the local and global interdependencies of economic environmental and social systems and the benefits to be gained through analysing all three together Change one thing and everything else changes With chapters from around 60 researchers across 34 countries this book illustrates the effect of natural resources and government policy settings 1990 2015 on the balancing act that was and is global trade It provides a holistic systems view of how supply chains work revealing how easily they can become fragmented and out of kilter And within all the chaos of COVID 19 it shows how MRIO is the one tool that can help rebuild a post pandemic global economy into a fairer safer world Civil War and Uncivil Development David Maher, 2018-03-15 This book challenges the conventional wisdom that civil war inevitably stymies economic development and that civil war represents development in reverse While some civil wars may have adverse economic effects Civil War and Uncivil Development posits that not all conflicts have negative economic consequences and under certain conditions civil war violence can bolster processes of economic development Using Colombia as a case study this book provides evidence that violence perpetrated by key actors of the conflict the public armed forces and paramilitaries has facilitated economic growth and processes of economic globalisation in Colombia namely international trade and foreign direct investment with profoundly negative consequences for large swathes of civilians The analysis also discusses the development in reverse logic in the context of other conflicts across the globe This book will be an invaluable resource for scholars practitioners and students in the fields of security and development civil war studies peace studies the political economy of conflict and

international relations **The Complexity of Human Rights** Philip Alston, 2024-02-08 This book provides the first systematic assessment from a human rights law perspective of the landmark contributions of the renowned legal anthropologist Sally Engle Merry What impact does over simplification have on human rights debates The understandable tendency to present them as a single universal and immutable concept ignores their complexity and by extension only serves to weaken them Merry and her colleagues transformed human rights thinking by highlighting the process of vernacularization which sees rights discourse as being unavoidably dependent upon translation and interpretation She also warned of the pitfalls of excessive reliance upon statistical and other indicators through the process of quantification Here the leading voices in the field assess the significance of these contributions **Greenhouse Gas Control Technologies** B. Eliasson, P. Riemer, A. Wokaun, 1999-05-20 These proceedings contain 270 papers outlining ideas and contributions to the new scientific technical and political discipline of Greenhouse Gas GHG Control The contributions were presented at the 4th International Conference on Greenhouse Gas Control Technologies GHGT 4 It was the largest gathering of experts active in this new and fast developing field GHGT 4 was different from its predecessors in that it included all greenhouse gases not only CO₂ and all issues which could contribute to the mitigation of the greenhouse problem technical economic and political The main focus was on practical solutions and real demonstrations of mitigation technology being planned and implemented today It also addressed ways to increase the efficiency of power production and utilisation and looked at proposals to encourage the development of renewable energy sources During the Opening Session 10 keynote addresses were heard from prominent personalities in government industry and academia To tackle this very inter disciplinary problem and to achieve acceptable solutions it is essential for industry and government to initiate intense dialogue and cooperation Conferences like this can provide the opportunity for a meeting of minds between engineers and politicians in the face of global challenge The primary attributes of this global challenge are manifold the problem is global and international it is inter disciplinary both in substance and approach it covers technical political and economic issues and involves government science industry and academia it is complex and non linear and it will take the efforts of all parties involved to solve the problem These proceedings contain ideas for starting demonstration projects and for making better use of the power and flexibility of market measures They also show it is a problem we can influence and that there is a wealth of ideas The challenge now is to find the right partners to put these ideas into action
