*Accounting for Biological Assets* Rute Gonçalves, Patrícia Lopes, 2017-10-16 This book explores accounting for biological assets under IAS 41 Agriculture and explains the recent adjustments introduced by the IASB which allow firms to choose between cost or revaluation models concerning mature bearer plants Identifying the firm and country level drivers that inform the disclosure and measurement practices of biological assets this concise guide examines the value relevance of measuring those assets at fair value It also analyses how firm and country level drivers explain the differences in the disclosure level and practices used to measure biological assets under IAS 41 Finally it evaluates whether there is a difference in the relevance of biological assets among the listed firms with high and low disclosure levels on biological assets Based on a major international study of a wide selection of firms and country level drivers this book is vital for standard setters stakeholders students accountants and auditors who need to understand disclosure and measurement practices of biological assets under IAS 41

*Ouch!* Paul Knott, 2012-12-17 It's time to wake up or get wiped out We live in a world dominated by a system that most of us aren't aware of never mind understand When it comes to money and how it really works most of us are too busy too bored or too bewildered to think about it despite being at the sharp end of the consequences We simply don't recognise the game that is being played out in front of us Well check your pockets you're in for a nasty shock OUCH is your entertaining answer to financial fear ignorance or confusion Quintessentially irreverent but with a deadly serious message ultimately it tells you how to protect your hard earned cash and save yourself from financial meltdown You can't afford to ignore it

**Extractive Industry Indigenisation in Zimbabwe** Kennedy Manduna, 2025-09-25 This book explains how and why Zimbabwe's extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country Indigenisation of Zimbabwe's extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe's government following the controversial Fast Track Land Reform Programme in 2000-2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co-optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of

empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development      *Review of the Fund's Strategy on Overdue Financial Obligations* International Monetary Fund. Nyemba,Charles Mbohwa,Keith F. Carter,2021-05-12 This book is the result of years of research following a realization of the mismatch of engineering skills produced by universities and those that industry required based on the situation in Sub Saharan Africa equally applicable to other regions in Africa and indeed worldwide The book is meant to assist engineering academics and engineers in industry to build capacity and cope with the dynamic trends in technology brought on by the 4th Industrial Revolution and to prepare for the 5th Industrial Revolution an era predicted to be dominated by critical and system thinkers with creative and innovative skills as basic necessities The book is also useful for policy making researchers in academia industrial and public sector researchers and implementers in governments that provide required funding for the development of human resources and skills The book primarily consists of the novel research and innovation approaches of modelling and building systems thinking sub models which were ultimately integrated into the Universal Systems Thinking UST model aimed at improving the quality of engineers and engineering practice The initiatives in this book include strategies for bridging the gap between industry and academia through systems thinking research The book provides information on how to model simulate adjust and implement integrated systems thinking approaches to engineering education and training for capacity building and sustainability The book also covers approaches to address research gaps and mismatch of skills while capitalizing on the successes of several projects carried out and supported by the Royal Academy of Engineering over the years      *The European Union and Global Development* S. Gänzle,S. Grimm,D. Makhan,2012-04-17 An assessment of the capacity of the EU to coordinate actors and policies with regards to global development The authors argue that the EU and its member states have the potential to act for global development when they are able to improve policy and actor coherence such as through better linking of bilateral and community programmes

**A Non-Technical Guide to International Accounting** Roger Hussey,Audra Ong,2019-11-08 Business has become more international and more complex Whether you are a manager a student or someone generally interested in corporate financial information you want information and you want to understand that information Companies in all countries are

required to generate financial information if for no other reason than to settle their tax obligations. If you are interested in the larger companies such as those listed on a stock exchange they must make financial information public and the nature and type of that information is strictly regulated. Companies must comply with accounting standards. Many countries use the International Accounting Standards issued by the IFRS Foundation. This is a not for profit international organization that has developed a single set of high quality global accounting standards. These standards can be complex but this book explains clearly the main requirements.

*The Regulation of the Legal Profession in Ireland* Maeve Hosier, 2014-08-17

The Regulation of the Legal Profession in Ireland is a new and insightful exploration of history, controversy and reform relating to the Irish legal system. During recent legislative debate over a professional reform bill, Alan Shatter, then the Minister of Justice in Ireland, publicly called this study in its earlier form as a dissertation 'marvellous' and stated that it should be compulsory reading for us all. He noted that the thesis sets out the history of the legal profession and how it evolved. It evolved continually until approximately 1870 and then went into paralysis and nothing has changed since. It is extraordinarily curious that people think the world stopped in 1870. Professor Laurent Pech, formerly of the School of Law at NUI Galway and now Head of the Law Department at Middlesex University London, has stated that this study makes a decisive contribution to the on-going scholarly and policy debates on this issue by evaluating the present regulatory framework and offering a number of suggestions to improve it in a context of increasing transnationalisation of the market for legal services. He added that Hosier's innovative approach to the problem of lawyers' misconduct is in particular worth noting. This aspect of her work has the potential to help alleviate a problem which has been extremely costly for both the legal profession and wider society alike. Her doctoral research also provides a valuable insight into the impact of the Troika upon the regulation of the legal profession in so-called bailed-out countries. Professor Pech concluded that the author should be congratulated for having made an exceptional contribution to the current debate on the regulation of the legal profession both nationally and internationally. I have no doubt that her original and thought-provoking work will be useful to policy makers and scholars alike. This book features Professor John Flood's new substantive introduction explaining the worldwide implications of professional reform efforts, the financial crisis that precipitated them and the relation to regulation of the legal profession in other countries. It also includes the author's notable examination of the effect of the Troika's bailout conditions on law reform possibilities in Ireland. This part of the book was presented in the US at the 2013 annual conference of the Law and Society Association. Finally, the book adds a section on 2014 developments in reform efforts in Ireland. A powerful new addition to the Dissertation Series from Quid Pro Books.

*Problematic Wildlife* Francesco M. Angelici, 2015-12-18

This book provides insight into the instances in which wildlife species can create problems. Some species trigger problems for human activities but many others need humans to save them and to continue to exist. The text addresses issues faced by economists and politicians dealing with laws involving actions undertaken to resolve the problems of the interaction between humans and

wildlife Here the words problematic species are used in their broadest sense as may be appreciated in the short introductions to the various sections At times the authors discuss special cases while always extending the discussion into a more general and broad vision At others they present real cutting edge analysis of ecological topics and issues The book will be of interest to biologists ecologists and wildlife managers involved in research on wildlife parks and environmental management as well as to government departments and agencies NGOs and conservation wildlife organizations Even those in contact with nature such as hunters herders and farmers will be able to find a great deal of important information Specific case studies are selected from among the most significant and prevalent cases throughout the world A total of 26 papers have been selected for this book written by zoologists biologists and ecologists Many have an interdisciplinary approach with contributions by economists criminologists technical specialists and engineers

**The Public Debt Problem** P. Lemieux,2013-01-06 The European public debt problem was in the making long before the 2007 2009 recession as budget deficits had become endemic A similar crisis is now developing in America where the same fundamental causes have been at work The Public Debt Problem analyzes the situation of public debts in America and reviews official forecasts for the federal government The author carefully explains the main concepts budget deficit public debt etc and analytical tools discounting government accounting Treasury securities bonds yields etc necessary to understand the issues

Developing Knowledge Societies for Distinct Country Contexts Lopes, Nuno Vasco,Baguma, Rehema,2020-12-18 Through knowledge societies people have capabilities to acquire information and to transform that information into knowledge and information which empowers them to enhance their lives and to contribute to the social economic development The practical application of knowledge into innovation and how this process from research to development to application can be achieved is a domain that is not yet very well understood Developing Knowledge Societies for Distinct Country Contexts is an essential reference source that documents methods best practices and case studies for the development of global knowledge societies at the national regional and local levels Featuring empirical analysis on topics such as smart governance financial literacy and globalization this book is ideally designed for business strategists economists international researchers anthropologists politicians policymakers governmental sectors academics and students seeking coverage on the development of knowledge society policies and strategies in various areas of the world

*Negotiating Marginality* Mahana Rajakishor,2019-03-01 Providing a critical ethnography of five different tribal movements fighting against the mega industrialization projects in Odisha India the book presents a thick description of the confrontation of the tribals to the authoritative forces of state domination This confrontation a counter hegemonic discourse is neither antagonistic to change nor anti to development but rather in fact the author argues that the tribals are the subaltern citizens who aspire for not only more material and economic prosperity but also freedom freedom from domination and deprivation The book therefore seeks to answer one important question how do the tribals appropriate marginality in their everyday lives in challenging domination and celebrating their desires wishes

anticipations and material prosperity as well as in coping with the ruins of frustration and suffering Drawing on long term ethnographic fieldwork carried over a decade 2006 16 this book provides empirical evidences and conceptual explorations on the resistance of subaltern citizens against domination The author challenges current theories of social movements which claim that a cultural critique of the development paradigm is writ large in the political actions of those marginalized by development tribals who lived in harmony with nature combining reverence for nature with the sustainable management of resources On the other hand questioning the established notion of marginality as a problem the author re visits marginality as a possible site that nourishes the capacity of the tribals to resist and to imagine and create a new world The complexity of tribal politics then cannot be reduced to an opposition between development and resistance The book therefore persuades us to re examine the politics of representation within the ideology of progressive movements Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka When Money Destroys Nations Philip Haslam, Russell Lamberti, 2014-09-30 Since the financial crisis of 2008 the major governments of the world have resorted to printing large amounts of money to pay national debts and bail out banks The warning signs are clear and the collapse of the Zimbabwean dollar after years of rampant money printing is a frightening example of what lies in store for world economies if painful reform is not executed When Money Destroys Nations tells the gripping story of the disintegration of the once thriving Zimbabwean economy and how ordinary people survived in turbulent circumstances Analysing this case within a global context Philip Haslam and Russell Lamberti investigate the causes of hyperinflation and draw ominous parallels between Zimbabwe and the world s developed economies The looming currency crises and hyperinflation in these major economies particularly the United States have the potential to turn the current world order upside down This story of how money destroys nations holds lessons that cannot be ignored **Tourism, Change and the Global South** Jarkko Saarinen, Jayne M. Rogerson, 2021-06-16 This significant volume is the first to focus on both the changing nature of tourism and the capacity of tourism to effect change especially in the Global South Geographically this changing nature of tourism is based on the transforming relationships between demand supply and location While this is nothing new in tourism recent decades have intensified the changing characteristics of global tourism From another perspective tourism represents a change and nowadays many localities and regions aim to use tourism as a tool for positive change i.e. development However this has turned out to be a challenging task in practice especially in the Global South context where the relationship between tourism growth and local development has often been controversial This book looks at a host of critical concepts in one volume such as growth and development adaptation and resilience sustainability and responsibility governance and planning and heritage and destination management strategies By understanding the drivers of change this book sheds new insight into the promise and role of sustainability and responsibility in tourism development This book will be of great interest to all upper level students academics and researchers in the fields of Tourism Geography and Cultural and Heritage studies

*Economics and Political Implications of International Financial Reporting Standards* Uchenna, Efobi, Nnadi, Matthias, Tanna, Sailesh, Iyoha, Francis, 2016-03-08 International Financial Reporting Standards IFRS are internationally recognized financial reporting guidelines regulated by the International Accounting Standards Board IASB to ensure that uniformity exists in the global financial system In addition to regulating financial reporting the adoption of IFRS has been shown to impact the flow of foreign capital and trade Economics and Political Implications of International Financial Reporting Standards focuses on the consequences and determinants of the adoption of the International Financial Reporting Standard IFRS which has remained a top issue in International Accounting This timely publication brings to the forefront issues related to the political and economic influences and impacts of IFRS in addition to providing a platform for further research in this area Policy makers academics researchers graduate level students and professionals across the fields of management economics finance international relations and political science will find this publication pertinent to furthering their understanding of financial reporting at the global level
