Madongonda, Government Phiri, 2015-11-25 The Art of Survival Depictions of

Zimbabwe and the Zimbabwean in Crisis offers a fresh interdisciplinary examination of a period against which development in Zimbabwe is often measured one epitomized by the severe shortages and runaway inflation of 2008 While journalistic stories of the 1998 2008 era often privilege the reductive stories of woe defeat and crushed hopes this volume explores how survival was still possible in those circumstances The book offers insights into how ordinary Zimbabweans battled the odds by making startling innovations in language use to legitimize new survival strategies how they weaved new songs and reinterpreted old ones to fight for survival how social institutions such as churches reinterpreted popular gospel and how authors playwrights and dramatists crafted works that acknowledge the unprecedented difficulties and yet find humour laughter and love in unusual places This work will appeal to both scholars who will appreciate the depth of the analysis and the general reader

Education and Development in Zimbabwe Edward Shizha, Michael T. Kariwo, 2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe It challenges scholars to think about the role of education its funding and the egalitarian approach to widening access to education The nexus between education democracy and policy change is a complex one The book provides an illuminating account of the constantly evolving notions of national identity language and citizenship from the Zimbabwean experience The book discusses educational successes and challenges by examining the ideological effects of social political and economic considerations on Zimbabwe's colonial and postcolonial education Currently literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe This book is likely to be one of the first on the impact of social political and economic meltdown on education The book is targeted at local and international academics and scholars of history of education and comparative education scholars of international education and development undergraduate and graduate students and professors who are interested in educational development in Africa particularly Zimbabwe Notwithstanding the book is a valuable resource to policy makers educational administrators and researchers and the wider community Shizha and Kariwo's book is an important and illuminating addition on the effects of social political and economic trajectories on education and development in Zimbabwe It critically analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this historical juncture The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries Rosemary Gordon Senior Lecturer in Educational Foundations University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching this text provides a comprehensive wide ranging and yet carefully detailed account of education in Zimbabwe This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe

Women and Words Irene Staunton, John Crowe, 2002 **African Impressions** Rebekah Mitsein, 2022-12-30 Shortlist 2023 Oscar Kenshur Book Prize Winner 2022 Walker Cowen Memorial Prize Nineteenth century European representations of Africa are notorious for depicting the continent with a blank interior But there was a time when British writers filled Africa with landed empires and contiguous trade routes linked together by a network of rivers This geographical narrative proliferated in fictional and nonfictional texts alike and it was born not from fanciful speculation but from British interpretations of what Africans said and showed about themselves and their worlds Investigations of the representation of Africa in British texts have typically concluded that the continent operated in the British imagination as a completely invented space with no meaningful connection to actual African worlds or as an inert realm onto which writers projected

their expansionist fantasies With African Impressions Rebekah Mitsein revises that narrative demonstrating that African elites successfully projected expressions of their sovereignty wealth right to power geopolitical clout and religious exceptionalism into Europe long before Europeans entered sub Saharan Africa Mitsein considers the ways that African self representation continued to drive European impressions of the continent across the early Enlightenment fueling desires to find the sources of West Africa s gold and the city states along the Niger to establish a relationship with the Christian kingdom of Prester John and to discover the source of the Nile Through an analysis of a range of genres including travel narratives geography books maps verse and fiction Mitsein shows how African strategies of self representation and European strategies for representing Africa grew increasingly inextricable as the ideas that Africans presented about themselves and their worlds migrated from contact zones to texts and back again The geographical narratives that arose from this cycle which unfolded over hundreds of years were made to fit expansionist agendas but they remained rooted in the African worlds and worldviews that shaped them Festschrift Rufus H. Chikweche,2015-12-01 Over the past years few African countries have been the focus of discussions and analyses generating a vast array of literature as much as Zimbabwe The socioeconomic and political crises since the turn of the century have deeply transformed the country from the ideals of a vibrant freshly independent nation just two decades earlier These transformations have necessitated the call for the restructuring of Zimbabwean society polity and economy But this literature remains exclusively within the realm of academic thinking and theorising with no concerted effort to move beyond this by explicitly drawing out the policy implications Beyond the Crises Zimbabwe's Prospects for Transformation is a welcome addition to the academic and policy literature with a much broader and all embracing focus in terms of policy interventions By focusing on different aspects of social and economic justice Murisa and Chikweche go beyond initiating a broad discussion on these two key pillars of human development with a view to suggesting possible future directions of practical solutions and policy development for the attainment of inclusive social and economic justice for Zimbabweans *Many People, Many Voices* ,1997 *Immigration and Development* Tiago Sequeira,2018-02-14 This book deals with several issues linking

immigration and social development Following several approaches from economic to sociological ones it covers the many effects of the rising phenomenon of immigration It deals with the effects of immigration on economic growth on human capital accumulation and on the government budget Moreover it also includes contributions on the social integration of immigrants and on the effects they have in some different cities It covers studies in countries such as Norway the USA Romania and South Africa The book Immigration and Development is an essential reading for those who want to get a social
