Mlambo, 2014-04-07 The first single volume history of Zimbabwe with detailed coverage from pre colonial times to the present this book examines Zimbabwe s pre colonial colonial and postcolonial social economic and political history and relates historical factors and trends to recent developments in the country Zimbabwe is a country with a rich history dating from the early San hunter gatherer societies The arrival of British imperial rule in 1890 impacted the country tremendously as the European rulers exploited Zimbabwe s resources giving rise to a movement of African nationalism and demands for independence This culminated in the armed conflict of the 1960s and 1970s and independence in 1980 The 1990s were marked by economic decline and the rise of opposition politics In 1999 Mugabe embarked on a violent land reform program that plunged the nation s economy into a downward spiral with political violence and human rights violations making Zimbabwe an international pariah state This book will be useful to those studying Zimbabwean history and those unfamiliar with the country s past      *History for the IB Diploma Paper 2 Independence Movements (1800-2000)* Allan Todd, Jean Bottaro, 2015-09-17 This course book covers Paper 2 World History Topic 8 Independence movements 1800 2000 of the History for the International Baccalaureate IB Diploma syllabus for the first assessment in 2017 Written by experience IB history examiners and teachers it offers authoritative and engaging guidance through the topic to help student s explore the origins and rise of independence movements methods used during independence movements and reasons for success and the challenges and responses after independence      *Making History in Mugabe's Zimbabwe* Blessing-Miles Tendi, 2010 The crisis that has engulfed Zimbabwe since 2000 is not simply a struggle against dictatorship It is also a struggle over ideas and deep seated historical issues still unresolved from the independence process that both Robert Mugabe s ZANU PF regime and Morgan Tsvangirai s MDC are vying first to define and then to address This book traces the role of politicians and public intellectuals in media civil society and the academy in producing and disseminating a politically usable historical narrative concerning ideas about patriotism race land human rights and sovereignty It raises pressing questions about the role of contemporary African intellectuals in the making of democratic societies In so doing the book adds a new and rich dimension to the study of African politics which is often diluted by the neglect of ideas      *The History and Political Transition of Zimbabwe* Sabelo J. Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis Its focus is on a very problematic political culture that is proving very hard to transcend At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti colonial liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled Chimurenga aristocracy However this Chimurenga

aristocracy is not cohesive as the politics that led to Robert Mugabe's ousting from power was preceded by dirty and protracted internal factionalism. At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe. This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe, taking seriously such issues as gender, misogyny, militarism, violence, media, identity, modes of accumulation, the ethnicization of politics, attempts to open lines of credit and FDI, national healing, and the national question as key variables, not only of a complete political culture but also of difficult transitional politics.

*Christians and Chiefs in Zimbabwe* David Maxwell, 2019-08-06. No detailed description available for *Christians and Chiefs in Zimbabwe: Society, Power, and Land in Northeastern Zimbabwe, ca. 1560-1960*.

Admire Mseba, 2024-11-12. A little over two decades ago Zimbabwe undertook its Fast Track Land Reform Programme. Critics saw it as nothing more than an assault on human and property rights for political expedience by a ruling elite that was fast losing its power. In contrast, those sympathetic to the land reform program saw it as fundamental to the righting of colonialism's historical wrongs. Yet rural displacements at the hands of state actors or of those closely connected to them continue. As in the past, the continuing land conflicts are mostly understood as the result of the actions of an authoritarian state that exploits its control of land for the political and economic benefit of those who inhabit it. These explanations share one thing in common: each understands the country's perpetual land questions in terms of the actions or inactions of the colonial or the postcolonial state. This book refocuses attention on how regimes of power, rooted in kinship, gender, generation, and status, have individually and in combination informed access to land in precolonial northeastern Zimbabwe. It then examines how these regimes of power interacted with colonial policies to inform the African experience in colonial Zimbabwe. Further, the book places land and the ability to ensure its fecundity at the center of the making and moderation of precolonial political power and how this power was impacted by the imposition of colonial rule. Tracing the dynamics of land and power from precolonial times together with their entanglement with colonial policies is important for this relationship is almost always neglected by both scholars and policymakers drawn to the high drama of colonial and postcolonial politics of land. This oversight has real consequences on our understandings of landed inequalities and how they are addressed. When Zimbabwe's postcolonial state focused on colonially induced racialized land inequalities, its land reform efforts left older forms of landed inequalities based on gender, generation, and ideas of belonging intact. The book, which details these inequalities, reminds Zimbabweans and others that if the quest for equity espoused in postcolonial land reforms is to be meaningful, it must be attentive to both colonially induced inequalities and those enduring disparities that predated and were deepened by and outlived colonial rule. At the same time, Zimbabweans who now live with a postcolonial state that is increasingly centralizing power over land may well learn from past societies' creative efforts to limit the authority of their leaders.
