

Unit 1 – Something to Shout About

Objectives

Vocabulary: success and achievements; special occasions; celebrations; career qualities; feelings

Reading: multiple matching; multiple choice

Listening: listening for gist and detail; blank filling; multiple matching

Speaking: asking for/giving advice; giving an opinion; expressing uncertainty; giving and responding to news; comparing and contrasting; speculating

English in Use: multiple cloze; error correction; gap fill; register transfer

Grammar: gerunds and infinitives; dependent prepositions

Phrasal verbs: carry; wear

Writing: formal and informal letters

Lead in (p. 7)

- 1 a. Direct Ss to the title of the unit. Discuss the meaning. 'Something to shout about' – when you've done something special, or have something to celebrate. Elicit other phrases to express happiness or how the people might be feeling – on top of the world/on cloud nine/ecstatic/proud/overwhelmed, etc.

Ask Ss to look at the pictures and say why the people might be happy.

Suggested Answer Key

- A he's won a prize
B he's made a breakthrough
C they've had a baby
D they're celebrating an anniversary/they've been married a long time.

Elicit other possible causes for celebration. Passing a driving test/passing an exam/getting married/getting a job, etc.

- b. Direct Ss to the task and ask them to discuss the aspects in pairs. Allow 2 or 3 minutes. Allow longer if the conversation seems animated. Get feedback from one or more pairs and encourage general discussion if Ss seem interested.

Suggested Answer Key

- A: For many people success is really important. It makes them feel special and improves their confidence. A lot of people like others to look up to them. For some people it's enough just to know they've achieved what they are able to do and they don't let everyone know what they've done. But most people like to get recognition for hard work or special talents. Happiness is certainly not automatic. People think that if you're successful you'll be happy, but this isn't always true.
- B: Sometimes if you're successful it's like a drug and you want more and more success so that it takes over your life. For other people there is a fear that they might not be able to live up to their success or even lose what they've gained so their lives are completely centred on achieving more and more. In more obvious cases, celebrities have the problem of loss of privacy and people who have made lots

of money might have the problem of people continually asking them for handouts.

- 2 a. Tell Ss they are going to listen to three people talking about what they think are the secrets of success. Put the three people on the board in this order: neurosurgeon – business executive – actor. Check they understand the meaning of 'neurosurgeon'. Elicit from Ss what they think these people might say about the secrets of success and list ideas on the board.

Let Ss listen once to identify the speakers and see if they have predicted correctly. Tell Ss they will have to listen for specific words to complete the sentences in the exercise. Advise them to look at the words that come before and after the gaps and to consider the grammar of the sentence. Tell them that this is a task they will have to do in the Listening paper.

Ask Ss to give synonyms for
block out (q. 2) = try not to listen to / filter out
channel your efforts (q. 3) = direct your energy
becomes second nature (q. 5) = becomes automatic

Let Ss listen again and give them 1 to 2 minutes after listening to fill in the blanks in the exercise.

Answer Key

- 1 believe in yourself
2 negative thoughts
3 sidetracked/distracted
4 Remind yourself of your target
5 focused and positive
6 disciplined
7 underestimate yourself

Ask Ss what else they can remember from what the three people said about the secrets of success and list them on the board.

Optional activity. Photocopy tapescript and ask them to find collocations for: **obstacles** (to face) – to **knock** (your confidence) – **incompatible** (with) – **get** (sidetracked/nowhere, etc). Ask them to suggest other situations when these collocations could be used.

- b. Tell Ss they are going to decide which three elements from Ex. 2a they think are the most important. Remind Ss to use a variety of linking devices to support their choices, e.g. so that, however, in order to, rather than, etc. Allow Ss 2 or 3 minutes to perform the task in pairs. Allow 2 or 3 pairs to offer feedback.

Suggested Answer Key

Firstly, blocking out negative thoughts is vital. Otherwise you'll lose confidence and never succeed.
Then, channelling your efforts in the right direction will help you to avoid losing focus and will encourage you to be positive.
Finally, reminding yourself of your target in different ways can really help.

Ask Ss if there is **one** single piece of advice they think stands out as the most important.
