Secured Transactions Law Reform in Africa Marek Dubovec, Louise Gullifer, 2019-10-31 Over the last few decades many countries have reformed their secured transactions law One of the main reasons has been the clear link between reform and the availability of credit and the drive to improve access to finance particularly for micro small and medium sized enterprises This book focuses particularly on developing economies in Africa which have legal frameworks influenced by English French Belgian Roman Dutch and other laws Reform in this area of law across African countries has taken a number of forms which are explored and discussed in this book Secured Transactions Law Reform in Africa is a mixture of a critical description of the pre reform law and practice and the reform process itself It also includes a comparative analysis of the legal provisions and an examination of the early results of the reforms The book sets out a road map for the future of secured transactions reform primarily in Africa but also in other countries that have undertaken or are contemplating similar reforms This book is the second in a series of books about Secured Transactions Law in countries around the world and its reform both on a national and an international scale The first book Secured Transactions Law Reform Principles Policies and Practice was published in 2016 **The People in Question** Jo Shaw, 2021-10-13 Questions of citizenship and the role of constitutions in determining its boundaries are under scrutiny in this judicious and accessible analysis from Jo Shaw

Democracy, Elections, and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2021-03-18 The third wave of democracy that reached African shores at the end of the Cold War brought with it a dramatic decline from 1990 onwards in

dictatorships military regimes one party governments and presidents for life Multiparty democracy was at the core of the constitutional revolutions that swept through most of Africa in those watershed years However that wave is either losing momentum or receding or being reversed in its entirety This volume examines democracy and elections in Africa a focus motivated by two concerns First after 30 years it is important to take stock of the state of constitutional democracy on the continent The democratic gains of the 1990s and 2000s seem to be falling by the wayside with the evidence mounting that regimes are concealing authoritarianism under the veneer of elections doing so in an international context where populist regimes are on the rise and free and fair multiparty elections are consequently no longer a given It is becoming a battle to protect and retain constitutional democracy The second reason for this volume s focus on democracy and elections is that multiparty democracy is essential for the proper functioning of the state in addressing the major problems facing Africa internal conflict inequality and lack of development and poor governance and corruption The focus of this volume is thus on how competitive politics or multiparty democracy can be realized and how through competition such politics could lead to better policy and practice outcomes

Financial Inclusion and Digital Transformation Regulatory Practices in Selected SADC Countries Howard Chitimira,Tapiwa Victor

Warikandwa,2023-03-28 This book investigates the regulation and promotion of financial inclusion and provides a comparative analysis of the regulation promotion and enforcement of the relevant laws in the SADC in particular South Africa Namibia Botswana and Zimbabwe as well as the challenges of financial inclusion In turn it evaluates financial inclusion in the context of specific challenges faced by unbanked and underbanked customers who are easy targets for cyber criminals because they tend to have lower levels of digital literacy The book presents novel discussions that identify the challenges and flaws associated with the enforcement of financial inclusion laws and related measures intended to promote financial inclusion in the SADC region This is primarily done in order to reveal the current strengths and weaknesses of financial inclusion laws in relation to certain aspects of the companies securities and financial markets in the region For example

there is no common financial inclusion instrument law that is effectively and uniformly applied throughout the SADC This has impeded the enforcement authorities efforts to effectively combat financial exclusion across the region The book is likely the most comprehensive study to date on the regulation and promotion of financial inclusion in the SADC region and fills a major gap in SADC and African legal jurisprudence As such it offers a valuable asset for policymakers attorneys bankers securities share holders and other market participants who deal with financial inclusion as well as undergraduate and graduate students interested in the topic
