Zimsec English Language Papers November 2013:

Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

The Art of Survival Joseph Chikowero, Anna Chitando, Angeline M. Madongonda, Government Phiri, 2015-11-25 *The Art of Survival: Depictions of Zimbabwe and the Zimbabwean in Crisis* offers a fresh interdisciplinary examination of a period against which development in Zimbabwe is often measured, one epitomized by the severe shortages and runaway inflation of 2008. While journalistic stories of the 1998-2008 era often privilege the reductive stories of woe, defeat and crushed hopes, this volume explores how survival was still possible in those circumstances. The book offers insights into how ordinary Zimbabweans battled the odds by making startling innovations in language use to legitimize new survival strategies; how they weaved new songs and reinterpreted old ones to fight for survival; how social institutions such as churches reinterpreted popular gospel; and how authors, playwrights and dramatists crafted works that acknowledge the unprecedented difficulties and yet find humour, laughter and love in unusual places. This work will appeal to both scholars who will appreciate the depth of the analysis and the general reader.
