Issues in African Literature E. Nnolim, 2010-12-01 The multitudinous nature of African literature has always been an issue but really not a problem although its oral base has been used by expatriate critics to accuse African literature of thin plots superficial characterisation and narrative structures African literature also it is observed is a mixed grill it is oral it is written in vernacular or tribal tongues written in foreign tongues English French Portuguese and within the foreign language in which it is written pidgin and creole further bend the already bent language giving African literature a further taint of linguistic impurity African literature further suffers from the nature of its newness and this created problems for the critic Because it is new and because its critics are in simultaneous existence with its writers we confront the problem of instant analysis Issues in African Literature continues the debate and tries to clarify contemporary burning issues in African literature by focussing on particular areas where the debate has been most concerned or around which it has hovered and been persistent

Raising Our Hands Jenna Arnold, 2020-06-16 White women are one of the most influential demographics in America we are the largest voting bloc with purchasing power that exceeds anybody else's and when we unify to demand change we are a force to be reckoned with Yet so many of us sit idly on the sidelines opting out of raising our hands to do learn and engage in ways that could make a difference Why White American women are no monolith Yet as Women's March national organizer Jenna Arnold has learned over the past few years criss crossing the US in conversations with white women about their identity and role in the country we do possess common characteristics ones that get in the way of us becoming more engaged as citizens We're so focused on checking off our to do lists or so afraid of getting it wrong or so busy trying to avoid conflict that we are actively avoiding the urgent conversations we need to have We are confused about how we got here and unsure how to do better Raising Our Hands is the reckoning cry for white women It asks us to step up and join the new frontlines of the fight against complacency in our homes in our behaviors and in our own minds Consider Raising Our Hands your starting place your Intro to Being a White Woman in Today's World freshman year class In these pages Jenna peels back the history that's been kept out of textbooks and the cultural norms that are holding us back so we can finally start really listening to marginalized voices and doing our part to promote progress The American white woman is a powerful force an essential participant to mobilize alongside the rest of humanity on behalf of the world and we can no longer make excuses for why we don't have time or don't know enough *CLA Journal* ,2016
