experience as a high mountain guide and an exceptional skier ABOUT THE AUTHOR Born in Morzine in 1948 Anselme Baud left his mark on the Alps skiing steep slopes history As a high mountain guide in 1973 he was one the first to ski on extreme downhills in the Alps the Andes in Antarctica or in the Himalayas As an ENSA professor he supervised during several years the mountain guides trainings in Bolivia and Nepal EXCERPT The Argenti re Basin is quite unique in the French Alps From piste skiing to off piste descents and ski mountaineering tours there is a fantastic selection of routes for all levels of skier on offer in this area Freeriders and ski tourers can take their pick of superb off piste routes Pas de Ch vre Argenti re Glacier the great couloirs Chapeau Poubelles and classic tours Col du Chardonnet Col du Passon and the big extreme slopes Courtes Verte The Grands Montets is the starting point for the classic Chamonix Zermatt Haute Route and it also allows access to Switzerland via the Col du Chardonnet This means that some of the tours can be done in a day or you can do them in two stages by staying at the Argenti re Hut Unfortunately the popularity of the Grands Montets ski station sometimes distracts a little from the splendour of the surrounding landscape as the crowds of visitors to the slopes sometimes show a certain lack of respect for the environment that welcomes them Nevertheless with a little bit of effort you can still find peace and quiet and more importantly slopes of untracked snow here

on the Tacul Diable Gervasutti Jager However these figures pale into insignificance compared with the hordes of skiers and boarders who can be found on the world famous Vall e Blanche from the beginning of the winter right through to the end of May Indeed you feel the contrast most strikingly once with skins on your skis you start climbing up towards the less accessible routes

PRESS REVIEW In its own genre this is a bible Alpinisme its deadly rages terrifying some and fascinating others The first to tread on its snowy dome were the Chamoniards Gabriel Paccard and Jacques Balmat on 8th August 1786 Since that time the mountain has enjoyed no respite first came the caravans of hopeful conquerors then there were the intrepid unguided parties those in eager pursuit of discovery and adventurers of all kinds Latterly with the aid of advances in technology we have witnessed or indeed participated in some more irreverent assaults on the mountain s dignity Jansen s laboratory financed by Eiffel a banquet sponsored by a leading brand of champagne a car on the summit that subsequently remained stranded in a snowdrift on the Petits Mulets Ridge 4690m for several months to name but a few

first to ski on extreme downhill in the Alps the Andes in Antarctica or in the Himalayas As an ENSA professor he supervised during several years the mountain guides trainings in Bolivia and Nepal EXCERPT We are now on the south side of the huge and austere rocky walls that make up the north faces of the Aiguille Verte the Droites and the Courtes We leave behind us the vertiginous ice slopes that fall straight down to the Argentière Glacier But don't for a minute think that things are going to be easier on this side because that certainly isn't the case Whichever side you are on the slopes here are just steep Nevertheless the history of extreme skiing has made light work of these south and west faces Whether it's the Charpoua cirque where Jean Marc Boivin and others pioneered routes or the south faces of the Droites and the Courtes nothing is as it seems These routes are consistently exposed and so to the risks of the routes themselves you should add those that their orientation brings rock fall avalanches Although accessing these routes was made a little bit easier by the construction of the Aiguille du Midi cable car and the Mont Blanc railway few of them can be done in a day Moreover some of these areas such as the Courtes Glacier are very broken up and crevassed which makes accessing them quite a hit and miss affair The Talfre Glacier has receded so far since 2000 that you can now avoid the dangerous and tiresome trudge up the Leschaux Glacier moraine This convenient gap in the glacier means that on the climb up you can easily get to the foot of the Pierre Banger via the west face of the old line of moraine The descent down the right bank is even easier still Don't let this picture of ease and comfort fool you the skiing is hard here and these are real mountains To ski here you have to be an experienced mountaineer as well as skier All that said this area has great routes to ski to dream about and to remember for a long time to come **Rick Steves' France** ,2008 See You Tomorrow Jeremy Evans,2021-05-01 Marco Siffredi was the first person to make a complete snowboard descent of Mount Everest in 2001 and was regarded by many as the world's best snowboarder But the following year in 2002 Marco mysteriously disappeared on Everest while attempting a more difficult route known as Hornbein Couloir an unrelentingly steep difficult to access route with a high failure rate Using exclusive never before granted interviews with family and friends Evans aims to solve Everest's greatest mystery in nearly a century while exploring Marco's pursuit of a dream his love of freedom and adventure and how his French family was forever altered by his loss
