Microwave Remote Sensing for Oceanographic and Marine Weather-Forecast Models Robin A.

Vaughan,2012-12-06 The power of microwave remote sensing for studying the oceans of the world was demonstrated conclusively by the SEASAT mission in 1978 Since then no further satellite flown instruments have been available to provide further data of this type However the proposed launch of ESA s ERS 1 satellite will lead to a new set of active microwave instruments being flown in space in 1990 Even though similar data has been obtained from aircraft flown instruments SAR scatterometers altimeters etc a great deal of activity has been taking place to develop the necessary expertise in handling and analysing such data when it comes on stream from ERS 1 and from subsequent satellites It was against this background that the scientific Affairs Division of NATO again agreed to sponsor an ASI in Dundee in 1988 Its purpose was to review existing knowledge of the extraction of marine and atmospheric geophysical parameters from satellite gathered microwave data and to enable scientists to prepare themselves and their computing systems to utilise the new data when it becomes available The importance of the data is largely as input parameters to assist in the fitting of boundary conditions in large computer models The course was concerned more with the non imaging instruments that is with passive radiometers altimeters and scatterometers than with the imaging synthetic aperture radar *Monthly Weather Review* ,1904

Sensing Motoyoshi Ikeda,1995-09-18 Oceanographic Applications of Remote Sensing describes how remotely sensed data fields can be applied to help solve problems in ocean related studies This timely reference written by and for oceanographers emphasizes the application of data to particular physical chemical and biological processes related to the ocean and the ocean atmosphere system The organization of the book reflects this emphasis with chapters arranged by process rather than by sensor characteristics Oceanographic Applications of Remote Sensing contains comprehensive information on the application of such relevant data sets as sea surface temperature and topography ocean circulation sea level variability wind speed and stress wave height solar radiation flux at ocean surfaces and sea ice characteristics and ice motion It also discusses the reliability of remotely sensed data and provides information about the applicability of the various data sets to particular process studies Its completeness and relevance makes Oceanographic Applications of Remote Sensing an important reference for modern studies of ocean and coupled ocean atmosphere processes Its unique coverage of the physics that govern satellite processes and their applications to oceanography ensures that it will remain an important reference as new satellites are introduced

Defeat and Triumph Stephen Sussna,2008-02-28 Defeat and Triumph tells the story of the still controversial important dramatic but little known Allied invasion of the French Riviera on August 15 1944 This was known as Operation Anvil and later renamed Operation Dragoon Notwithstanding the massive opposition of Winston Churchill his military advisors and many notable American generals Dragoon happened After suffering four years of humiliating and devastating defeat French men and women were assisted by their American and British Allies and this invasion ensured World War II victory in Europe Defeat and Triumph The Story of a Controversial Allied Invasion and French Rebirth thoroughly analyzes the pros and cons of Dragoon The book provides a panoramic history of Operation Dragoon and related events in France Germany Great Britain the United States and the Mediterranean from 1940 1945 The author is in the unique position of having served on Day of Dragoon as Helmsman of LST 1012 Landing Ship Tank The LST 1012 participated in the most dangerous and tragic event of the invasion He has gathered and analyzed a treasure trove of previously unpublished American British French and German archival materials diaries letters periodical articles maps and interviews
