

The Weatherford HOMCO™ Steel
Internal Liner Casing Patch

Fast, permanent repairs in downhole tubing and casing strings.

Designed to seal perforations, collar and thread leaks, splits, limited corrosive areas in tubing and casing and to provide added protection on squeeze jobs, the HOMCO Steel Liner Casing Patch offers significant advantages over other sealing methods:

SPEED - Repairs are made quickly. Total setting time is limited only by round trip time. And there is no waiting time. Operations can be resumed as soon as the setting tool is pulled and the patch pressure tested.

CERTAINTY - You get a seal the first time if leak information is accurate. The patch will seal against external pressure differentials as great as 3500 psi over a 1 inch diameter hole. It can be successfully placed to any depth and has repeatedly sealed leaks and perforations where cementing efforts have failed.

VERSATILITY - Homco has a complete line of tools and patches for over 60 different sizes and weights of tubing and casing from 2 7/8 to 13 3/8 inches. Patches can be used in production wells, in wells that have to be deepened after patching and in disposal and storage wells. They can be run through and set below previously installed patches and are permanent yet can be removed from the well bore by milling.

The Homco Steel Liner Casing Patch has achieved worldwide acceptance. Skilled Homco personnel, using special setting tools and techniques have installed over 5,000 patches to date.

The Homco patch is an internal steel liner having a standard wall thickness of 1/8 inch. Available in 20' lengths up to several hundred feet, they are corrugated longitudinally to provide clearance for running inside casing and tubing. Covered with a glass mat and coated with epoxy resin, the patch is expanded to conform symmetrically to the casing bore. Casing diameter is reduced .300 inch using the standard 1/8 inch liner and .480 inch using the heavier 3/16 inch wall liner. Special liners are available for high pressure and temperature operations as well as H_2S , CO_2 , and corrosive conditions.

When you need fast, dependable leak repair in your downhole tubing and casing strings, HOMCO or A-1 Bit & Tool repair services are available through 72 locations worldwide. You can contact them directly or through the Divisional Offices listed below.
