The Challenge of Internet Literacy Lyn Elizabeth M. Martin, 2019-12-05 This book first published in 1997 gives an overview of how the Internet is used in academic libraries with a focus on the dual role librarians serve as instructors and researchers. It includes concise summaries, keyword listings, and up to date bibliographies for each chapter. It contains in depth coverage of, among others, a research planning process that leads searchers to logical sources on the web and a systematic analysis of the results; a case study from the University of Texas at Austin that shows how to integrate information literacy skills into traditional services and partnerships; the development of a web page by a government documents department and a navigational tool developed by a physics laboratory; and identification and evaluation of internet resources for test and measurement tools for education and psychology and a selected bibliography listing resources for internet trainers.
