National Educational Technology Standards for Teachers International Society for Technology in Education, 2002
Standards were developed to guide educational leaders in recognizing and addressing the essential conditions for effective use of technology to support P 12 education **Teaching for Learning** Claire Howell Major, Michael S. Harris, Todd D. Zakrajsek, 2015-08-27 Despite a growing body of research on teaching methods instructors lack a comprehensive resource that highlights and synthesizes proven approaches Teaching for Learning fills that gap Each of the one hundred and one entries describes an approach and lists its essential features and elements demonstrates how that approach has been used in education including specific examples from different disciplines reviews findings from the research literature describes techniques to improve effectiveness Teaching for Learning provides instructors with a resource grounded in the academic knowledge base written in an easily accessible engaging and practical style *Integrating Information Technology into the Teacher Education Curriculum* Nancy Wentworth, Rodney Earle, Michael Connell, 2013-01-11 As teaching evolves teacher education must keep up This book examines systemic reforms that incorporate new technology to improve any teacher education program While there are books that address the integration of technology into teaching curricula very few address the process for teacher education faculty and the systemic reform of a teacher education program Integrating Information Technology into the Teacher Education Curriculum Process and Products of Change provides practical examples and suggestions for teacher education departments striving to integrate new technologies into their curriculum It will help in the effort to motivate faculty to make utilizing new technology a natural strategy for the teachers they are educating It describes the creation of Design Teams at Brigham Young University's McKay School of Education funded by a PT3 grant and how these teams worked to successfully reconfigure the school's teacher preparation curricula Integrating Information Technology into the Teacher Education Curriculum examines how to compose and create a curriculum design team including both teacher education and content specific methods instructors training and collaboration opportunities that focus on the infusion of technology how to facilitate alignment among a university cooperating school districts the State Office of Education and other available teacher preparation programs specific case examples of the redevelopment of teacher education courses by the instructors who teach them the process of changing a technology course required by the teacher education program the process of extending grant activities to the university's partner school districts and the State Office of Education From the editors Preparing tomorrow's teachers to use technology in schools is a complex endeavor requiring the infusion of technology into curriculum and instructional practices at all levels of the pre service program In many early teacher education programs prospective teachers took a computer literacy class separate from content methods classes and rarely engaged in real collaboration on how schoolteachers could integrate technology into authentic learning experiences By focusing merely on how to use computers technology training failed by not addressing how to teach students more effectively

using a variety of technological tools What teachers need to know most is how to teach content more effectively Technology integration should cause teachers to develop different perspectives through rethinking teaching and learning Teaching with technology causes teachers to confront their established beliefs about instruction and their traditional roles as classroom teachers
