Randall B. Bush

Weekend Agreement Kindle Edition Barbara Wallace:

God, Morality, and Beauty Randall B. Bush, 2019-07-01 Randall B Bush analyzes the ways unacknowledged axiological assumptions e g about what is important why human beings are valuing creatures and where the capacity to value comes from prejudice the perspectives and approaches of various academic disciplines especially in the social sciences and the humanities The disciplines of ethics and aesthetics provide the most useful tools for a philosophy of value but academic overspecialization has compartmentalized and segregated these disciplines from others threatening to unravel the unity of conceptions of the moral and the beautiful in human existence Bush argues that a dialectical approach to conflicts between ethics and aesthetics can point to a broader axiological vision informed by a Trinitarian conception of reality in which the whole a coherent theory of value is more than the sum of its parts
