Field Artillery ,2006 *Shared Entrepreneurship* F. Shipper,2014-08-13 Today s views of leadership and management have significantly expanded to incorporate a variety of elements such as rewards visions and worker participation However most perspectives still view leadership as something that is assigned to a designated person who then exercises influence downward toward subordinate followers In many ways the persistent top down command and control theme that supports established leadership thought and practice prevents organizations from fully tapping into their human resources in turn limiting their flexibility to meet the challenges of increasingly dynamic complex and competitive environments Shared Entrepreneurship replaces the top down approaches of the past with a new framework that draws strengths and innovation from collaboration and sharing This book is divided into two main sections The first section consists

of six chapters which provide an in depth overview and discussion of shared entrepreneurship The second section consists of eight original case studies commissioned by the authors featuring such companies as Herman Miller Inc SRC Holdings and W L Gore Associates
