Inquiries Into Literacy Learning and Cultural Competencies in a World of Borders Tonya Huber, Philip S. Roberson, 2018-04-01 The vision of this book has been to represent the work of educators and scholars invested in moving education beyond insular models of language study and cultural awareness to more globally representative and inclusive interactions that range from the studied word to the lived experience and from reading the word to read the world Freire Macedo 1987 A fundamental aspect of this vision is to recognize the living nature of language and its intricate role in culture Culture is mediated through language Hauerwas Skawinski Ryan 2017 p 202 and the linguistic experience of difference is essential for developing cultural competence beyond surface culture considerations The editors of this volume are committed to a closer bond between literacy learning and cultural competencies particularly when literacy practices and education are often characterized by quantifiable standards and accountability restraints Readers of this volume will find meaningful and practical approaches to engage with learners from their earliest encounter with language through adolescence and adulthood and across ever changing local and global communities

School's Choice Wagma Mommandi, Kevin Welner, 2021 Access issues are pivotal to almost all charter school tensions and debates How well are these schools performing Are they segregating and stratifying Are they public and democratic Are they fairly funded Can apparent successes be scaled up Answers to all these core questions hinge on how access to charter schools is shaped This book describes the incentives and pressures on charter schools to restrict access and examines how charters navigate those pressures explaining access restricting practices in relation to the ecosystem within which charter schools are created It also explains how charters have sometimes responded by resisting the pressures and sometimes by surrendering to them The text presents analyses of 13 different types of practices around access each of which shapes the school's enrollment The authors conclude by offering recommendations for how states and authorizers can address access related inequities that arise in the charter sector School's Choice provides timely information on critical academic and policy issues that will come into play as charter school policy continues to evolve Book Features Examines how charter schools control who gains and retains access Explores policies and practices that undermine equitable admission and encourage opportunity hoarding Offers a set of

Twiggy Billue, 2014-07-16 SUSPENDED FOR LIFE takes an empirical look via real

experiences at how Zero Tolerance Policies contained in the schools Code of Conduct disregards the rights of the student especially students with disabilities These policies are failing students everywhere including my residence of Syracuse New York Statistically these unfair and biased Zero Tolerance Policies have led to very high suspension rates affecting mainly inner city students but overwhelmingly target students with IEPs 504 Accommodations the untested but suspected LD student and the intellectually gifted student Healthcare Mental Health and Medical Privacy HIPPA now play large roles in school especially in decisions to suspend a student however coupled with a school districts Code of Conduct they have become a crucial aspect for suspension Once you understand the link between a referral to In School Suspension ISS warehousing students or a referral for Out of School Suspension OSS push out of students you will realize that in most cases suspension can lead directly to the prison industrial complex for our young women and men Stopping this from happening to your student may depend on how well you are prepared to advocate for your child We must not allow suspension to push out our children because ostensibly it may be ensuring them a life sentence of unemployment crime or even death We say it starts at home with the parents so if we can better understand our student s rights and the rights we have as parents we can better prepare ourselves to advocate for our student and to hold the school district accountable for the Education of Our Children

and vouchers on the public's investment in public education. Written from an insider's perspective by an early advocate for charter schools, the work exposes the underbelly of the radical deregulation of our public schools. **New and Better Schools** Michael Q. McShane, 2014-12-05 In the past decade, the number of students enrolled in private school choice programs has grown tenfold. But granting students access to public financing for their private education has not led to the vibrant marketplace of school options many of its supporters envisioned. If school choice policy is to improve the American education landscape, careful thought must be put in to understand how it can expand existing high quality schools and create new high quality schools to serve more children. *New and Better Schools* attacks this problem from the perspective of both researchers and practitioners, documenting the hurdles entrepreneurial school leaders face and offering a way forward.

Thinking Ecologically in Educational Policy and Research Sarah Winchell Lenhoff, Jeremy Singer, Michael Gottfried, 2024-02-29 This book places a focus on educational ecosystems that is understanding the complex nature of educational experiences and promoting a coordinated set of policy and practice solutions to address interrelated problems that manifest in school and student outcomes. Educational policy and politics have been dominated by school improvement initiatives that locate educational problems and solutions in schools themselves rather than in the systemic and structural roots of those problems: segregation, poverty, and histories of compounding inequality. Youth outcomes that we associate with schools, e.g., achievement, attendance, graduation, are the consequences of systemic, structural, and environmental factors that interact with the lived experiences of students in their communities and schools. This insightful volume provides examples of how to understand and analyze educational issues ecologically and evidence on the opportunities and challenges with forging cross-sector partnerships to address educational issues ecologically. *Thinking Ecologically in Educational Policy and Research* will be a key resource for practitioners and researchers of education leadership and policy, educational administration, educational research, educational studies, and sociology. This book was originally published as a special issue of the *Peabody Journal of Education*.
