Pinball Wizards Adam Ruben, 2017-11-01 Pinball's history is America's history from gambling and war themed machines to the arcade revolution and ultimately the decline of the need to leave your house The strangest thing about pinball is that it persists and not just as nostalgia Pinball didn't just stick around it grew and continues to evolve with the times Somehow in today's iPhone world a three hundred pound monstrosity of wood and cables has survived to enjoy yet another renaissance Pinball is more to humor writer Adam Ruben than a fascinating book topic it's a lifelong obsession Ruben played competitive pinball for years rising as high as the 80th ranked player in the world Then he had children Now mired in 938th place darn kids Ruben tries to stage a comeback visiting pinball museums gaming conventions pinball machine designers and even pinball factories in his attempt to discover what makes the world's best players the real wizards so good Along the way Ruben examines the bigger story of pinball's invention ascent near defeat resurgence near defeat again and struggle to find its niche in modern society
