makes a new sound with them He takes us to the urban landscape of Berlin longtime home to nightingale colonies where the birds sing ever louder in order to be heard and invites us to listen in on their remarkable collaboration as birds and instruments riff off of each other's sounds Through dialogue travel records sonograms tours of Berlin's city parks and musings on the place animal music occupies in our collective imagination Rothenberg takes us on a quest for a new sonic alchemy a music impossible for any one species to make alone In the tradition of *The Hidden Life of Trees* and *The Invention of Nature* Rothenberg has written a provocative and accessible book to attune us ever closer to the natural environment around us
