Understanding Your Instructional Power Tanji Reed Marshall, 2023-02-15 Explore the web of factors that influence your power as a teacher and how you can better use that power to foster student agency and empowerment What kind of power do teachers have What influences their instructional decision making and how does that affect students particularly Black students and other students of color How can educators move away from practices that oppress and devalue students to practices that support and empower them These are just a few of the questions that author Tanji Reed Marshall answers in *Understanding Your Instructional Power* Countering the notion that teachers are powerless in the classroom she introduces the Power Principle to help teachers unpack how they understand and use the power associated with their authority and responsibility as an educator Drawing from her own experience as a classroom teacher and coach Reed Marshall explains how the Power Principle reveals itself through various elements including language use by both students and teachers hidden curriculum and classroom culture She identifies four levels of curricular autonomy that teachers have Unfettered Calibrated Restricted and Minimal and four dimensions of instructional power that characterize their classroom environment Empowering Agentive Protective and Disenfranchising Reflection exercises throughout the book guide readers through a deep analysis of their personal and professional histories and ideologies including how these influence students learning experiences Reed Marshall shares her own journey of setbacks and progress as she offers support and encouragement to K 12 teachers seeking to use their power in productive ways so that all students can bring their full selves to class and receive the education they deserve

The Routledge International Handbook of Teacher and School Development Christopher Day, 2012 The contributions are authoritative and of high quality This is an important resource The Teacher Trainer A seminal state of the art critical review of teacher and school development which touches upon and discusses issues at both policy and practice levels

Rooted in Belonging Melissa Sherfinski, 2023 Most

practitioners and scholars agree that critical and reflective early childhood and elementary teachers are foundational for children's holistic growth and development. Yet current policies focused on elevating testing and performativity are contributing to student and teacher anxiety and alienation. This book offers a counternarrative to neoliberal standardized preservice teacher development and assessment processes. The author examines how a cohort of teacher educators worked alongside their preservice teachers, both groups predominately White and female, to redesign their teacher education program. Sherfinski reveals how the narrative portfolio, an inquiry-based alternative to accreditation and standards-based assessments, was designed to locally document, resist, and disrupt the status quo. The narrative portfolio speaks back to standardized preservice teacher assessments by providing spaces for teacher candidates to demonstrate their knowledge of theory and practice as enacted in the natural settings of school and community. Rooted in Belonging shows why humanizing democratic place-based practices should be at the forefront of teacher education. Book Features: Provides a rare portrait of equity-based teacher education at the confluence of place-based approaches, student diversity, and teacher education. Grapples with tough issues such as how the shared Whiteness of preservice teachers and children and their families play out alongside their differences. Explores how educators negotiate deep ideological differences while still preparing teachers for critical work. Examines how the current political climate around Black Lives Matters, the 2020 presidential election, and the COVID-19 pandemic contribute to the challenges of working in communities. Discusses how race, space, time, and settler colonialism shape the work of preservice teachers and their teacher educators. Shares action research and teacher leadership assignments, critical thinking and planning exercises, personal reflections, and preservice teachers' narrative portfolio artifacts.

Teaching Young Adult Literature Today Judith A. Hayn, Jeffrey S. Kaplan, 2012-03-15 Teaching Young Adult Literature Today introduces the reader to what is current and relevant in the plethora of good books available for adolescents. More importantly, literary experts illustrate how teachers everywhere can help their students become lifelong readers by simply introducing them to great reads: smart, insightful, and engaging books that are specifically written for adolescents. Hayn, Kaplan, and their contributors address a wide range of topics: how to avoid common obstacles to using YAL; selecting quality YAL for classrooms while balancing these with curriculum requirements; engaging disenfranchised readers; pairing YAL with technology as an innovative way to teach curriculum standards across all content areas. Contributors also discuss more theoretical subjects such as the absence of lesbian, gay, bisexual, transgender, and questioning LGBTQ young adult literature in secondary classrooms and contemporary YAL that responds to the changing expectations of digital generation readers who want to blur the boundaries between page and screen.

Handbook of Education Policy Research Gary Sykes, Barbara Schneider, David N. Plank, 2012-09-10 Co-published by Routledge for the American Educational Research Association (AERA). Educational policy continues to be of major concern. Policy debates about economic growth and national competitiveness, for example, commonly focus on the importance of human capital and a highly educated workforce. Defining the theoretical

boundaries and methodological approaches of education policy research are the two primary themes of this comprehensive AERA sponsored Handbook Organized into seven sections the Handbook focuses on 1 disciplinary foundations of educational policy 2 methodological perspectives 3 the policy process 4 resources management and organization 5 teaching and learning policy 6 actors and institutions and 7 education access and differentiation Drawing from multiple disciplines the Handbook s over one hundred authors address three central questions What policy issues and questions have oriented current policy research What research strategies and methods have proven most fruitful And what issues questions and methods will drive future policy research Topics such as early childhood education school choice access to higher education teacher accountability and testing and measurement cut across the 63 chapters in the volume The politics surrounding these and other issues are objectively analyzed by authors and commentators Each of the seven sections concludes with two commentaries by leading scholars in the field The first considers the current state of policy design and the second addresses the current state of policy research This book is appropriate for scholars and graduate students working in the field of education policy and for the growing number of academic government and think tank researchers engaged in policy research For more information on the American Educational Research Association please visit <http://www.aera.net>

Critical Approaches for Teacher Residencies Thomas Albright, Stephanie Behm Cross, Camea Davis, 2025-10-22 This book asks whose histories knowledges struggles sorrows joys dreams and expertise matter in teacher education and teacher residencies It conceives of teacher residencies as a space for the multiplicity of voices and experiences needed to create opportunities for more democratic education and explores how this might be achieved despite the ways in which schools have become both more politicized and standardized in recent years It argues that this work will not happen in silos but in community As such it showcases residency programs and program providers that have embraced a critical turn in residency work as well as the voices and perspectives of critical community co conspirators and the youth being served Chapters examine geo socio historical and political contexts the democratic and participatory nature of residency work critical theoretical frameworks and learning as liberation Advocating for a critical turn in teacher residency programming and research this book provides research interventions practical tools and residency models that emphasize criticality in teacher preparation It offers valuable insights for researchers interested in democratizing teacher education

Critical Theories, Radical Pedagogies, and Social Education, 2010-01-01 A refreshing collection of essays that offers a range of critical and radical voices which are generally marginalized in the critical social studies mainstream This collection is a good read with valuable insights that can

impact teaching practice Canadian Social Studies Canada's National Social Studies Journal Volume 45 Issue 1 Award
 American Educational Studies Association AERA Critics Choice Book Award 2011 This edited collection begins with the
 assertion that there are emergent and provocative theories and practices that should be part of the discourse on social
 studies education in the 21st century Anarchist eco activist anti capitalist and other radical perspectives such as disability
 studies and critical race theory are explored as viable alternatives in responding to current neo conservative and neo liberal
 educational policies shaping social studies curriculum and teaching Despite the interdisciplinary nature the field and a
 historical commitment to investigating fundamental social issues such as democracy human rights and social justice social
 studies theory and practice tends to be steeped in a reproductive framework celebrating and sustaining the status quo
 encouraging passive acceptance of current social realities and historical constructions rather than a critical examination of
 alternatives These tendencies have been reinforced by education policies such as No Child Left Behind which have narrowly
 defined ways of knowing as rooted in empirical science and apolitical forms of comprehension This book comes at a pivotal
 moment for radical teaching and for critical pedagogy bringing the radical debate occurring in social sciences and in activist
 circles where global protests have demonstrated the success that radical actions can have in resisting rigid state hierarchies
 and oppressive regimes worldwide to social studies education *Teacher Education Yearbook XXV* Nancy P. Gallavan, LeAnn
