Date: 29.06.18

Dear Team Members,

This is to inform you that the Marketing Department is organizing a Team Building Meeting for all our staff members on 2nd July, 2018 at Meeting Audi- 1 from 11 a.m. till 7 p.m.

In order to grow in our career, it is extremely important that we grow together and that can only happen if we work as a team so that our skills and talents synergize to bring better results. That's the reason our department keeps organizing various team building activities from time to time.

At this event, we have organized a meeting in which all team members will be asked to share their experiences as the team member. They can also come up with suggestions or share reasons which restrict them from delivering the performance they expect to. There will also be a few team building indoor games along with a lunch sponsored by the Company.

We look forward to your presence at this team building event which is been organized for helping each one of us grow. In case you think you will not be able to attend this meeting, kindly inform the same to Ms. Geeta Gupta at 98989-12345.

Best Regards,

Blue Shark Team-Building Rizwan Sheikh, 2021-10-03. Teams working in a crisis are operating in a high turbulence environment. Blue Shark Teams thrive in a crisis. They swim through turbulence and glide to project success. This book reveals the concepts and practical insight on how to create and lead Blue Shark Teams. The Blue Shark Model of Leading High Performance Teams is based on Daniel Goleman's emotional intelligence model and Bruce Tuckman's team building model: forming, storming, norming, performing, and adjourning. This book shows how to apply these models to large companies, small to medium size businesses, and projects during a crisis. It explains how managers can develop their leadership style and lead high performance teams. A real life case study, which was a success story during the COVID 19 pandemic, is discussed to elaborate the team building and emotional intelligence models. The lessons learned from this case study can be applied to any crisis in any industry across the spectrum, including healthcare, IT, telecom, construction, manufacturing, oil and gas, airlines, financial services, retail, public sector, and consulting. The book arms executives and managers with the concepts and techniques to lead and manage projects, teams, and companies during turbulent and volatile times. If you are a CEO, CIO, CTO, or CXO of a Fortune 500 company, a mid to small size Business Owner, a Project Manager, or a Senior Executive facing a crisis, then this book is for you. It describes real life case studies and projects that show how the theoretical frameworks and models developed by leading researchers can be applied successfully to companies and projects, especially during a crisis and pandemic such as COVID 19.
