The Educational Times, and Journal of the College of Preceptors ,1900 *Pink Beam* Lord Rc,2007-07-01 A study of the novels and short stories of science fiction writer Philip K Dick 1928 1982 with presentation of a literary chronology of his career Numbered Days Alexandra Garbarini,2006-01-01 Terrorist attacks regularly trigger the enactment of repressive laws setting in motion a vicious cycle that threatens to devastate civil liberties over the twenty first century In this clear sighted book Bruce Ackerman peers into the future and presents an intuitive practical alternative He proposes an emergency constitution that enables government to take extraordinary actions to

prevent a second strike in the short run while prohibiting permanent measures that destroy our freedom over the longer run Ackerman's emergency constitution exposes the dangers lurking behind the popular notion that we are fighting a war on terror He criticizes court opinions that have adopted the war framework showing how they uncritically accept extreme presidential claims to sweeping powers Instead of expanding the authority of the commander in chief the courts should encourage new forms of checks and balances that allow for decisive but carefully controlled presidential action during emergencies In making his case Ackerman explores emergency provisions in constitutions ranging from France to South Africa retaining aspects that work and adapting others He shows that no country today is well equipped to both fend off terrorists and preserve fundamental liberties drawing particular attention to recent British reactions to terrorist attacks Written for thoughtful citizens throughout the world this book is democracy's constitutional reply to political excess in the sinister era of terrorism *Key Cultural Texts in Translation* Kirsten Malmkjær, Adriana Șerban, Fransiska

Louwagie, 2018-05-15 In the context of increased movement across borders this book examines how key cultural texts and concepts are transferred between nations and languages as well as across different media The texts examined in this book are considered fundamental to their source culture and can also take on a particular relevance to other target cultures The chapters investigate cultural transfers and differences realised through translation and reflect critically upon the implications of these with regard to matters of cultural identity The book offers an important contribution to cultural approaches in translation studies with ramifications across different disciplines including literary studies history philosophy and gender studies The chapters offer a range of cultural and methodological frameworks and are written by scholars from a variety of language and cultural backgrounds Western and Eastern *HSA Heritage Auctions Rare Books Auction Catalog #6030* James Gannon, 2009-09 *Gray Zones* Jonathan Petropoulos, John Roth, 2006-10-01 Few essays about the Holocaust are better known or more important than Primo Levi's reflections on what he called the gray zone a reality in which moral ambiguity and compromise were pronounced In this volume accomplished Holocaust scholars among them Raul Hilberg Gerhard L Weinberg Christopher Browning Peter Hayes and Lynn Rapaport explore the terrain that Levi identified Together they bring a necessary interdisciplinary focus to bear on timely and often controversial topics in cutting edge Holocaust studies that range from historical analysis to popular culture While each essay utilizes a particular methodology and argues for its own thesis the volume as a whole advances the claim that the more we learn about the Holocaust the more complex that event turns out to be Only if ambiguities and compromises in the Holocaust and its aftermath are identified explored and at times allowed to remain lest resolution deceive us will our awareness of the Holocaust and its implications be as full as possible **Host Bibliographic Record for Bound with Item Barcode 30112113992587 and Others**, 1807 *Sale Catalogues* American Art Association, Anderson Galleries (Firm), inc American art association Aderson galleries, 1921

Tracy Brain, 2014-07-22 Despite being widely studied on both undergraduate and postgraduate courses the writing of Sylvia Plath has been relatively neglected in relation to the attention given to her life and what drove her to suicide Tracy Brain aims to remedy this by introducing completely new approaches to Plath's writing taking the studies away from the familiar concentration to reveal that Plath as a writer was concerned with a much wider range of important cultural and political topics Unlike most of the existing literary criticism it shifts the focus away from biographical readings and encompasses the full range of Plath's poetry prose journals and letters using a variety of critical methods
