Innovation and Resource Management Strategies for Startups Development Baporikar, Neeta, 2024-02-26 In business success hinges not only on individual performance but on the vitality of the broader ecosystem in which a company operates. However, crafting a thriving ecosystem alone is not enough to ensure success. Equally vital is the ability to manage relationships within this ecosystem effectively, harnessing its potential to enhance overall performance. Moreover, startups face the daunting challenge of scalability, a pivotal factor in long-term sustainability. Yet, achieving scalability often proves elusive due to complexities in resource management and ecosystem development. *Innovation and Resource Management Strategies for Startups Development* is a comprehensive solution to the pressing issues of resource management, ecosystem development, and startup scalability. This unique reference book delves deep into these critical aspects, offering a wealth of ideas, case studies, and best practices alongside thorough theoretical analysis. We recognize the undeniable influence of resource management and ecosystems on startup scalability, and our objective is to enhance understanding in this domain. By examining the powerful concepts that have shaped development policy and dissecting the role of resource management and ecosystem development in current discourse, our book provides the necessary insights to identify inefficiencies and facilitate startup scalability. It goes beyond mere theory, fostering collaborative strategies among resources, ecosystems, and startups on a global scale, ultimately contributing to social and economic development. *China's Belt and Road Initiative in Africa* R. Mireille Manga Edimo, Julien Rajaoson, 2025-05-19 This book provides insight into the economic partnerships between African governments and China offered by the Belt and Road Initiative. It examines the Belt and Road Initiative from a macro and microeconomic perspective to present a detailed understanding of the transformation of African development policies since the initiative began. Particular attention is given to the historical context behind the Belt and Road Initiative, the financing of infrastructure and public services in Africa, the spread of technology from China to Africa, China's position within the global political order, African energy markets, and the development of special economic zones. This book grounds analysis of the Belt and Road Initiative within specific policies and case studies from Africa. It will be relevant to students, researchers, and practitioners interested in development economics and the political economy. *Education and Youth Agency* Joan G. DeJaeghere, Jasmina Josić, Kate S. McCleary, 2016-09-01 This book offers a comprehensive overview of studies on youth agency across various parts of the world. It explores diverse perspectives on education, citizenship, and future livelihoods, modernity and tradition, gender equality, and social norms and transformations as they relate to how young people construct their agency. Drawing on case studies of young women and men from Africa, the Americas, and South Asia, this book illustrates the different ways in which education affects youth's beliefs, engagement, action, and identities in broader historical, social, cultural, economic, and political contexts. Chapters argue for education as a potential force for equity and explore how both formal schooling and informal educational programs may challenge and inspire youth through individual and collective action.

Ruck, Michele Peterson-Badali, Michael Freeman, 2016-12-08 While the notion of young people as individuals worthy or capable of having rights is of relatively recent origin over the past several decades there has been a substantial increase in both social and

political commitment to children's rights as well as a tendency to grant young people some of the rights that were typically accorded only to adults. In addition, there has been a noticeable shift in orientation from a focus on children's protection and provision to an emphasis on children's participation and self-determination. With contributions from a wide range of international scholars, the Handbook of Children's Rights brings together research, theory, and practice from diverse perspectives on children's rights. This volume constitutes a comprehensive treatment of critical perspectives concerning children's rights in their various forms. Its contributions address some of the major scholarly tensions and policy debates comprising the current discourse on children's rights, including the best interests of the child, evolving capacities of the child, states' rights versus children's rights, rights of children versus parental or family rights, children as citizens, children's rights versus children's responsibilities, and balancing protection and participation. In addition to its multidisciplinary focus, the handbook includes perspectives from social science domains in which children's rights scholarship has evolved largely independently due to distinct and seemingly competing assumptions and disciplinary approaches, e.g., childhood studies, developmental psychology, sociology of childhood, anthropology, and political science. The handbook also brings together diverse methodological approaches to the study of children's rights, including both quantitative and qualitative perspectives and policy analysis. This comprehensive, cosmopolitan, and timely volume serves as an important reference for both scholarly and policy-driven interest in the voices and perspectives of children and youth.

Indigenous Discourses on Knowledge and Development in Africa Edward Shizha, Ali A. Abdi, 2013-12-04 African social development is often explained from outsider perspectives that are mainly European and Euro-American, leaving African indigenous discourses and ways of knowing and doing absent from discussions and debates on knowledge and development. This book is intended to present Africanist indigenous voices in current debates on economic, educational, political, and social development in Africa. The authors and contributors to the volume present bold and timely ideas and scholarship for defining Africa through its challenges, possible policy formations, planning, and implementation at the local, regional, and national levels. The book also reveals insightful examinations of the hype, the myths, and the realities of many topics of concern with respect to dominant development discourses and challenges the misconceptions and misrepresentations of indigenous perspectives on knowledge, productions, and overall social well-being or lack thereof. The volume brings together researchers who are concerned with comparative education, international development, and African development research and practice in particular. Policy makers, institutional planners, education specialists, governmental and non-governmental managers, and the wider public should all benefit from the contents and analyses of this book.

[A review of Kenya's national policies relevant to climate change adaptation and mitigation](#) Paul O. Ongugo, David Langat, Vincent O. Oeba, James M. Kimondo, Benjamin Owuor, Jane Njuguna, George Okwaro, Aaron J. M. Russell, 2014-12-16 Climate change will impact many sectors of the economy: rural agriculture, biodiversity, hydrology, etc. Farmers are particularly affected since agriculture, livestock, fisheries, horticulture, and

agroforestry depend on specific soil rainfall and temperature conditions Mt Elgon s ecosystem is well known for its agricultural production hence our choice to study how the implementation of environmental policies affect the livelihoods of local communities
