*Politics Latin America* Gavin O'Toole, 2017-08-23. *Politics Latin America* examines the role of Latin America in the world and its importance to the study of politics with particular emphasis on the institutions and processes that exist to guarantee democracy and the forces that threaten to compromise it. Now in its third edition and fully revised to reflect recent developments in the region, *Politics Latin America* provides students and teachers with an accessible overview of the region's unique political and economic landscape covering every aspect of governance in its 21 countries. The book examines the international relations of Latin American states as they seek to carve out a role in an increasingly globalised world and will be an ideal introduction for undergraduate courses in Latin American politics, comparative politics and other disciplines. This new edition will include updated references to scholarship and debates on new themes such as environmental rights, women presidents, the Latin American Pope, Afro-Latinos and the politics of sexual diversity, examination of demographic change and social movements, a new chapter on environmental economics and sustainable development. This book is essential reading for undergraduates taking courses in Latin American Politics.

Sri Lanka Education Sector Assessment Halil Dundar, Benoit Millot, Michelle Riboud, Mari Shoji, Harsha Aturupane, Sangeeta Goyal, Dhushyanth Raju, 2017-06-16. A country's education system plays a pivotal role in promoting economic growth and shared prosperity. Sri Lanka has enjoyed high school attainment and enrollment rates for several decades. However, it still faces major challenges in the education sector and these challenges undermine the country's inclusive growth goal and its ambition to become a competitive upper middle income country. The authors of *Sri Lanka Education Sector Assessment: Achievements, Challenges and Policy Options* offer a thorough review of Sri Lanka's education sector from early childhood education through higher education. With this book, they attempt to answer three questions: How is Sri Lanka's education system performing, especially with respect to participation rates, learning outcomes and labor market outcomes? How can the country address the challenges at each stage of the education process, taking into account both country and international experience and also best practices? Which policy actions should Sri Lanka make a priority for the short and medium term? The authors identify the most critical constraints on performance and present strategic priorities and policy options to address them. To attain inclusive growth and become globally competitive, Sri Lanka needs to embark on integrated reforms across all levels of education. These reforms must address both short-term skill shortages and long-term productivity. As Sri Lanka moves up the development ladder, the priorities of primary, secondary and postsecondary education must be aligned to meet the increasingly complex education and skill requirements.
