FCC Record United States. Federal Communications Commission,2009 **Official Gazette of the United States Patent and Trademark Office** ,1983 State Building in Boom Times Ryan Saylor,2014 State Building in Boom Times argues that commodity booms and coalitional politics are central to understanding the state building variation within and across Latin America and Africa It shows how resource booms can trigger the provision of new public goods and institutional strengthening and thus help countries expand their state capacity But these possibilities hinge on coalitional politics as seen through six cases Countries ruled by export oriented coalitions Argentina Chile and Mauritius expanded their state capacity as a direct result of commodity booms But countries in which exporters were politically marginalized Colombia Ghana and Nigeria missed analogous state building opportunities because ruling coalitions preyed upon export wealth rather than promoting export interests via state building The coalitional basis of these divergent outcomes suggests that contrary to the prevailing belief in a resource curse natural resource wealth does not necessarily dispose countries to low state capacity Instead export oriented coalitions can harness boom times for developmental gains even in the context of weak institutions This finding warrants reappraising some widespread presumptions about the relationship between resource wealth and state building as well as the public policies that are commonly proposed for developing countries to manage their natural resource wealth **Fundamentals of Radar** Naval Air Technical Training Center (Corpus Christi, Tex.),1943 **Kindler of Souls** Henry Cohen,2007-04-01 In September 1930 the New York Times published a list of the clergy whom Rabbi Stephen Wise considered the ten foremost religious leaders in this country The list included nine Christians and Rabbi Henry Cohen of Galveston Texas Little known today Henry Cohen was a rabbi to be reckoned with a man Woodrow Wilson called the foremost citizen of Texas who also impressed the likes of William Howard Taft and Clarence Darrow Cohen s fleeting fame however was built not on powerful friendships but on a lifetime of service to needy Jews as well as gentiles in London South Africa Jamaica and for the last sixty four years of his life Galveston Texas More than 10 000 Jews mostly from Eastern Europe arrived in Galveston in the early twentieth century Rabbi Cohen greeted many of the new arrivals in Yiddish then helped them find jobs through a network that extended throughout the Southwest and Midwest United States The Galveston Movement along with Cohen s pioneering work reforming Texas prisons and fighting the Ku Klux Klan made the rabbi a legend in his time As this portrait shows however he was also a lovable mensch to his grandson Rabbi Henry Cohen II reminisces about his grandfather s jokes while placing the legendary rabbi in historical context creating the best picture yet of this important Texan a man perhaps best summarized by Rabbi Wise in the New York Times as a soul who touches and kindles souls *Hearings, Reports and Prints of the House Committee on Interstate and Foreign Commerce* United States. Congress. House. Committee on the Judiciary. Subcommittee on Civil Rights and Constitutional Rights, 1974 **Telephony**, 1909 **Urgency and Human Rights** Eva Rieter, Karin Zwaan, 2020-11-21 This book deals with urgency and human rights Urgent is a word often used in very different contexts Yet together with a reference to human rights violations it likely triggers images of people caught up in armed conflict facing terror from either the state gangs paramilitaries or terrorists Or of people fleeing terror and facing walls fences or seas at risk of being returned to terror or ignored neglected abused deprived of access to justice and basic facilities facing death torture and cruel treatment Here these both ongoing and expected violations are explored in the context of quasi judicial proceedings as international tribunals and domestic courts are increasingly called upon to order interim measures or accelerate proceedings in such cases This edited volume concerns the protective potential of interim measures in international human rights cases and the legitimacy of their use and discusses obstacles to their persuasive use to clarify how their legitimacy and protective potential could be enhanced in the context of concrete legal cases Examining this is especially pressing when courts and quasi judicial bodies have used interim measures in response to requests by individuals and organisations in the context of issues that are unpopular with governments and or controversial within society which has led states to at times employ political pressure to limit their use Urgency and human rights are discussed from the vantage point of various practitioners and scholars with the aim of identifying how interim measures could be legitimate and protective and to single out obstacles to their implementation Drawing from practices developed in various international and regional adjudicatory systems the contributors provide their perspectives on the legitimacy and or the protective potential of interim measures and other quasi judicial proceedings in urgent human rights cases There is considerable discussion about how interim measures can be legitimate and well functioning tools to address urgent human rights cases This book aims to contribute to the ongoing discussion in this respect Dr Eva Rieter is senior researcher and lecturer public international law and human rights law at the Centre for State and Law Radboud University Nijmegen The Netherlands Dr Karin Zwaan is associate professor in the Department of Migration Law at the Centre for State and Law Radboud University Nijmegen The Netherlands **Ateneo Law Journal**, 1959 *Safety and Human Resource Law for the Safety Professional* Thomas D.
